Project Description

Increasing private and commercial development on the west plains between Spokane and Cheney adjacent to Interstate 90 has increased traffic demands for the Medical Lake Interchange (Exit 272). Medical Lake Interchange is operating at level of service F during the peak hours. It is anticipated that level of service shall begin to degrade for the Geiger Field. Medical Lake Interchange was constructed in 1965 and Geiger Field Interchange was constructed in 1962. Upgrade and improve interchange at Geiger Field Exit 276.
