

READ THIS FIRST!

- If you already have another type of transponder on your vehicle, contact the Customer Service Center.
- You **MUST** correctly install the transponder on the front of the vehicle in the area designated in these instructions. Do not place the transponder in the vehicle or other temporary location.
- If you have more than one vehicle, be sure the proper transponder is on the correct vehicle.
- If you have any questions, please contact Customer Service at 1-866-936-8246.

Required Supplies

- *Good To Go!* License Plate Transponder
- Screwdriver (flat-blade or Phillips depending on your vehicle's license plate mounting screws).

Good To Go! Transponder Installation Procedures

- 1** Remove the screws from the license plate area of your front bumper. If your vehicle does not have mounting screws, you will need two self-tapping threaded screws.
- 2** Hold the transponder so that the etched lettering is facing you and the mounting holes are to the top, as shown in Figure 1.

General Installation Information

The *Good To Go!* License Plate Transponder is for exterior use and should be installed on your vehicle's front bumper using the same space as the license plate holder.

Note: *If your vehicle does not have a front license plate, install the transponder in the area where the license plate would normally be mounted. If your vehicle does not have a front license plate area, contact Customer Service for other transponder options (866-936-8246).*

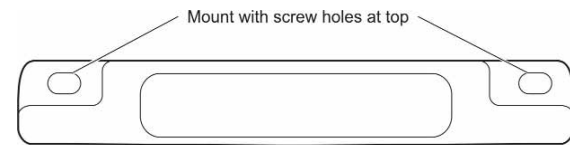

Figure 1: Correct Transponder Orientation

Continued on other side 

- 3 Position the transponder so that it covers the top area of the vehicle license plate. The license plate should be between the transponder and the vehicle bumper (Figure 2). Align the screw holes for the transponder with the screw holes for your license plate holder.

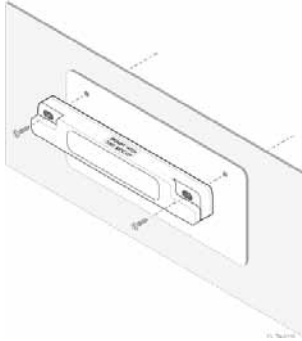

Figure 2: Transponder Placement on License Plate and Bumper

- 4 If your vehicle does not have a front license plate, install the transponder in the area where a license plate would normally be mounted.
- 5 Fasten the transponder to the bumper using the license plate mounting screws (Figure 3).

Figure 3: Properly Mounted Transponder.

Contact Customer Service if your vehicle requires an alternate mounting location for the transponder or you have additional questions (866-936-8246).
