SECTION B DETAILING PROGRESS TOWARD ADOPTING REQUIRED STANDARDS:

Please briefly describe (1) why your jurisdiction has not yet adopted the required access permitting standards for managed access state highways within city boundaries, (2) where your jurisdiction is in the process of adopting the required standards, and (3) what date you anticipate the required standards will be adopted.

1) The City of Stanwood has not adopted the required access permitting standards for managed access state highways because the legislation was only recently brought to our attention via WSDOT letter.
2) We are currently in process of updating our Public Works Standards and will include the addition that SR 532 access management must comply with WAC 468-51 and 468-52.
3) We anticipate that our Public Works Standards update will be completed within the first quarter of 2008.
