

How will construction of the new I-405 Bridge over Oakesdale Avenue SW affect traffic?

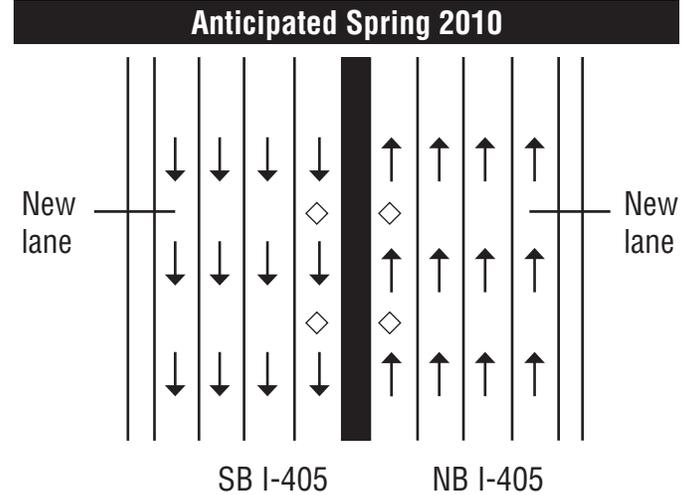

Currently, crews are rebuilding the I-405 Bridge over Oakesdale Avenue SW.

After half of the new bridge is complete, crews will shift southbound lanes onto the new bridge. Northbound lanes will remain on the existing bridge.

Once the bridge is complete, northbound traffic will join southbound traffic on the new bridge.

Once the project is complete, there will be an additional lane of traffic in each direction on the bridge.
