

PROJECT DATA SHEET

The Project Data Sheet is prepared by the EIS project team to provide the Statewide Advisory Group for Environmental Stewardship (SAGES) with information on the proposed project. At this stage of development, detailed information on project impacts is most likely not known; thus project teams are encouraged to summarize to the extent possible what types of impacts might be anticipated.

PROJECT ACTION

Include a short description of the project action/type of work you are proposing for example:

“DEVELOPMENT OF A CONSTRUCTION SITE FOR MAJOR BRIDGE REPLACEMENT”

Today's Date:

Presenter:

Region:

PROJECT DESCRIPTION

(What are you planning on doing? Include route number, length of proposed improvements)

DESCRIPTION OF STUDY AREA/PROJECT LOCATION

(Including identification of counties and cities in which the project occurs, topography and types of land use)

DRAFT PURPOSE AND NEED STATEMENT

BRIEF DESCRIPTION OF PRELIMINARY ALTERNATIVES

ENVIRONMENTAL, SOCIAL, AND ECONOMIC CONCERNS

(Include a brief discussion of known issues based on your preliminary alternatives that may be studied in the NEPA document. The discussion may include, but is not limited to, the following elements of the environment, use more pages if needed)

Land Use Issues

Noise

Endangered Species

Hydrological

(Water quality/surface water; groundwater; floodplain; streams and rivers)

Ecological

(Wildlife, fish, vegetation; wetlands)

Social and Economic Factors

(Environmental Justice Issues)

Air Quality

Utilities and Community Services

Visual and Aesthetic

Historic, Cultural, Archaeological Resources

Hazardous Waste/Materials

Energy

Coastal Areas/Shorelines

Public Lands 4(f), 6(f), Forests
