

Tacoma construction activities

The first two supplemental stability pontoons of the final cycle built in Tacoma float out of the casting basin. This final float-out marks completion of pontoon construction in Tacoma, where 44 pontoons were built. Photo taken Dec. 3, 2014.

Kenmore construction activities

Crews in Kenmore pour precast expansion joint panels for the new SR 520 floating bridge. Photo taken Dec. 16, 2014.

SR 520 construction update: December 2014

West Approach Bridge North construction activities

Crews install a pile for the temporary work bridge near Foster Island in Seattle. This work bridge will be used as a platform to build the permanent West Approach Bridge North structure. Photo taken Dec. 29, 2014.

These are three of the approximately 830 piles it will take to build the temporary work bridge on the west end of Lake Washington. Each pile is 24 inches in diameter. Photo taken Dec. 29, 2014.

Eastside construction activities

The Eastside's new 2.2-mile bicycle and pedestrian path, now open along the highway's north side, runs from 108th Avenue Northeast in Bellevue to Evergreen Point Road in Medina. Photo taken Dec. 24, 2014.

Floating bridge and landings construction activities

In Medina, crews install some of the last girders on the east high-rise. Photo taken Dec. 5, 2014.

Pontoon Movements

Supplemental stability pontoon JSW, built in Tacoma, passes through Lake Union on its way to Lake Washington. 74 new pontoons now reside on the lake. Photo taken Dec. 7, 2014.

Looking east toward Medina, crews building the new SR 520 floating bridge continue bridge deck work. Photo taken Dec. 10, 2014.
