US 395 North Spokane Corridor

SPOKANE RIVER TO FRANCIS-FREYA

Get Involved

Join the Public Art Plan Committee and influence the way the North Spokane Corridor (NSC) will look in your neighborhood.

You are invited to partner with WSDOT and your community to help select architectural themes for the bridges and walls, and unique features for the pedestrian/bike path. As a committee member you will recommend themes that will: provide visual interest along the corridor, preserve the neighborhood continuity, make a unique statement about your community character, and create a positive lasting public image of your neighborhood.

Individuals or community groups are encouraged to get involved with the Public Art Plan.
