

PRO500-d: Review Permit Conditions for Feasibility

See also: [Environmental Manual – Chapter 500](#)

Effective June 2014

Start procedure: Resource agency issues permit for a project.

End procedure: Environmental Coordinator enters the commitments into the Commitment Tracking System.

Actor:	Action:
Resource Agency	1. Issues permit for a project.
Environmental Coordinator	2. Coordinates with the Design and Construction Teams to determine if the conditions are feasible and consistent with the project plans and the available budget. <ul style="list-style-type: none"> • If the permit condition is feasible, go to the step 4. • If not feasible, discuss the need for modify the permit conditions with your Environmental Manager. If approved, go to step 3. The Environmental Manager or Assistant Manager may decide to initiate this contact. 3. Contact the resource agency staff person who issued the permit if you determine that condition(s) cannot be met. Explain the project feasibility problem with the permit conditions and see if there’s any flexibility to negotiate them. <ul style="list-style-type: none"> • If the resource agency is willing to adapt the condition, go to step 4. • If the resource agency is unwilling, talk to your Environmental Manager about other options such as appealing the permit. 4. Enters permit or approval into the commitment file. See PRO 490-a Establish a Commitment File . 5. Enters commitments the Commitment Tracking System. See PRO 490-c Enter Commitments into the Commitment Tracking System .
