BARRIER DELINERATOR REQUIREMENTS

The barriers shall be placed as specified in the Plan. The barriers shall be positioned to deflect and contain traffic. The barriers shall be designed to withstand the forces of impact and the buffeting of wind.

1. Flexible Guide Post
   - Use for wooden guide posts or metal guide posts.
   - Flexible Guide Post shall be designed to absorb the impact of vehicles without causing damage to the vehicle or barrier post.
   - Guide posts shall be installed with a minimum of 3' (0.9 m) above grade to avoid vehicle contact.

2. Concrete Guide Post
   - Use for concrete guide posts.
   - Concrete Guide Posts shall be designed to withstand the forces of impact and the buffeting of wind.
   - Guide posts shall be installed with a minimum of 3' (0.9 m) above grade to avoid vehicle contact.

3. Reflective Sheeting
   - Reflective Sheeting shall be mounted on the barrier posts to increase visibility.
   - Reflective Sheeting shall be installed in accordance with the manufacturer's recommendations.

4. Guide Post Specifications
   - Guide posts shall be made of approved materials and shall comply with the specifications set forth in the Plan.
   - Guide posts shall be painted in accordance with the color specifications set forth in the Plan.

5. Guide Post Footings
   - Guide post footings shall be installed in accordance with the specifications set forth in the Plan.
   - Guide post footings shall be installed to ensure the stability of the guide post.

6. Guide Post Anchoring
   - Guide post anchors shall be installed in accordance with the specifications set forth in the Plan.
   - Guide post anchors shall be designed to provide the necessary support to the guide post.

7. Guide Post Spacing
   - Guide post spacing shall be determined based on the traffic volume and speed of the roadway.
   - Guide post spacing shall be installed to ensure proper vehicle guidance.

8. Guide Post Installation
   - Guide posts shall be installed by the Contractor in accordance with the specifications set forth in the Plan.
   - Guide posts shall be installed using approved methods and equipment.

NOTES

1. When the Contractor installs guide posts, the guide posts shall be placed in the location specified in the Plan.

2. When the Contractor installs guide posts, the guide posts shall be placed in the location specified in the Plan.

3. Guide posts shall be installed in accordance with the specifications set forth in the Plan.

4. Guide posts shall be installed in accordance with the specifications set forth in the Plan.

5. Guide posts shall be installed in accordance with the specifications set forth in the Plan.

6. Guide posts shall be installed in accordance with the specifications set forth in the Plan.

7. Guide posts shall be installed in accordance with the specifications set forth in the Plan.

8. Guide posts shall be installed in accordance with the specifications set forth in the Plan.
