1. Install a minimum of 3 sets of diagonal chevrons in the gore area. A 50' (ft) spacing is standard; however, for gore areas shorter than 150' (ft) use a 25' (ft) spacing, and for gore areas greater than 400' (ft) a spacing of 100' (ft) may be used.

2. The acute angle of the diagonals shall always point in the direction of main line traffic.

3. For truncated gore alternative, see Standard Plan M-2.21.
