INTRO.GR1  Special Provisions  
(September 3, 2019)  
All Projects  

DIVISION1.GR1  General Requirements  

DESWORK.GR1  Description of Work  

DESWORK1.FR1  (Description of Work)  
(March 13, 1995)  
Use in all projects except those involving only painting of metal bridges.  
(1 fill-in)  

DESWORK2.FB1  (Description of Work - Bridge Painting)  
(August 3, 2015)  
Use in projects involving only the painting of metal bridges.  
(3 fill-ins)  

1-02.GR1  Bid Procedures and Conditions  

1-02.1.GR1  Prequalification of Bidders  

1-02.1.INST1.GR1  (Section 1-02.1, including title, is deleted and replaced with the following)  
Must use one preceding any of the following:  

1-02.1.OPT1.FR1  (Vacant)  
(April 2, 2018)  
Use in projects where all of the work will occur outside the highway right of way.  
Requires approval of HQ Contract Ad and Award Manager.  

1-02.4.GR1  Examination of Plans, Specifications and Site of Work  

1-02.4(1).GR1  General  

1-02.4(1).INST1.GR1  (Section 1-02.4(1) is supplemented with the following)  
Must use once preceding any of the following:  

1-02.4(1).OPT1.FR1  (September 3, 2019)  
Use in projects for which soils investigations have been made, modifications to existing structures are part of the Project scope, and for all bridges located within the project limits. The first fill-in identifies the site (web address or physical address) where the Reference Information is located. The second fill-in lists the items available for the prospective bidder’s review. Soils Reference Information should include the Test Boring Legend and the Logs of Test Boring that are included in the project, listed by hole number. Other geotechnical resources such as reports and memoranda (including title, author, and date), test pit data and other subsurface investigation data can also be listed here. Structural Reference Information should include bridge
inspection reports for all bridges within the project limits and as-built plans for all bridges which are being modified as part of the Project scope including but not limited to widening, repair, retrofit (rail, seismic, etc.), painting, overlay and paving. Structural Reference Information should be listed by bridge number.

1-02.6.GR1 Preparation of Proposal

1-02.6.INST2.GR1 (The fourth paragraph is replaced with the following)
Must use one preceding any of the following:

1-02.6.OPT1.GR1 (Disadvantaged Business Enterprise (DBE) Documentation)
(June 1, 2017)
Use in projects with Federal Transit Administration (FTA) funding, or where FTA is the lead funding agency, that require the use of the Disadvantaged Business Enterprise (DBE) Condition of Award (COA) Participation Goal Requirement. Must use with 1-02.9.OPT2.GR1, 1-02.13.OPT1.GR1 and 1-07.11.OPT8.FR1.

1-02.6.OPT2.GR1 (Underutilized Disadvantaged Business Enterprise (UDBE) Documentation)
(June 3, 2019)
Use in projects that require the use of the Underutilized Disadvantaged Business Enterprise (UDBE) Condition of Award (COA) Participation Goal Requirement. Must use with 1-02.9.OPT1.GR1 and 1-07.11.OPT3.FR1.

1-02.6.OPT3.GR1 (Subcontractor list not required with bid)
(The fifth and sixth paragraphs of Section 1-02.6 are deleted)
(August 2, 2004)
Use in all projects with estimated cost of $1,000,000 or less.

1-02.6.INST3.GR1 (Section 1-02.6 is supplemented with the following)
Must use once preceding any of the following:

1-02.6.OPT4.FR1 (Alternative Bids)
(April 2, 2018)
Use in projects when the proposal is to contain alternate items for bidding. Fill-ins consist of a brief description of the portion of the project or of the work that would be subject to alternative bidding. Repeat the "Alternative" paragraphs if the project consists of more than two alternatives.
(4 or more fill-ins)

1-02.6.OPT5.FR1 (Cumulative Alternate Bidding)
(August 3, 2015)
Use in contracts when the award process is modified to include cumulative Alternates. The region shall determine and notify the Ad and Award office of the Funds Available.
The bid items shall be segregated into a Base Bid and
Alternates as appropriate. Fill-ins consist of a brief description of the portion of the project or of the work that is included in the noted Alternates. The specification language may be adjusted to suit the number of Alternates.

Use of this GSP requires the approval of the HQ Ad and Award Manager and HQ Assistant State Design Engineer. When requesting approval, provide documentation of funds available, and that Approvals consistent with Design Manual Chapter 300 exist for the Base project and each potential combination of Base plus Alternates.

(1 or more fill-ins)

1-02.6.OPT6.FR1 (Progress Schedule)
(January 7, 2019)
Use in all projects unless a Type A Schedule (simple bar chart) is requested. This request should come to the Design Project Engineer from the Construction Project Engineer and be the result of discussion between the Design Project Engineer and the Construction Project Engineer concerning the level of schedule complexity required to administer the contract.

Must use with 1-08.3(5).OPT2.FR1.

Must also use 1-02.6.OPT7.FR1 and 1-08.3(2).OPT2.GR1 when a Type C Progress Schedule is specified.

Fill-in #1 and fill-in #3 is the minimum bid amount. Any amount over $100,000 requires HQ Construction Office approval. For the following engineers estimates, use the corresponding minimum bid amount:

<table>
<thead>
<tr>
<th>Engineers Estimate</th>
<th>Minimum Bid Type B</th>
<th>Minimum Bid Type C</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1 to $5 mil</td>
<td>$5,000</td>
<td>$10,000</td>
</tr>
<tr>
<td>$5 mil to $15 mil</td>
<td>$10,000</td>
<td>$20,000</td>
</tr>
<tr>
<td>$15 mil to $20 mil</td>
<td>$15,000</td>
<td>$30,000</td>
</tr>
<tr>
<td>$20 mil to $30 mil</td>
<td>$25,000</td>
<td>$50,000</td>
</tr>
<tr>
<td>$30 mil to $50 mil</td>
<td>$35,000</td>
<td>$75,000</td>
</tr>
<tr>
<td>Over $50 million</td>
<td>$50,000</td>
<td>$100,000</td>
</tr>
</tbody>
</table>

Fill-in #2 is the schedule Type, either “B” or “C.” Use of a Type C schedule requires prior approval from HQ Construction Administration and the Region Construction Manager.

1-02.6.OPT7.FR1 (Schedule Updates)
(January 7, 2019)
Use in projects that specify a Type C Progress Schedule. Must also use 1-02.6.OPT6.FR1 and 1-08.3(2).OPT2.GR1.
(2 fill-ins)

Fill-in #1 and fill-in #2 is the minimum bid amount.
(Item number 3 in the second paragraph of Section 1-02.6 is supplemented with the following)
Must use once preceding any of the following:

(Maximum Funds Available)
(September 3, 2019)
Use in Connecting Washington projects where Section 502/602 of Second Engrossed Substitute Senate Bill 5988 applies and the project has an upset price.
(1 fill-in)
Fill-in #1 is the maximum funds available for this Contract.

(Item number 1 in the fifth paragraph of Section 1-02.6 is revised to read:) Must use once preceding any of the following:

(Subcontractor List)
(June 4, 2020)
Use in all projects with an estimated cost of $1,000,000 or more.
Do not use with 1-02.6.OPT3.GR1.

Delivery of Proposal

(Section 1-02.9 is revised to is supplemented with the following) Must use once preceding any of the following:

(June 3, 2019)
Use in projects that require the use of the Underutilized Disadvantaged Business Enterprise (UDBE) Condition of Award (COA) Participation Goal Requirement. Must use with 1-02.6.OPT2.GR1 and 1-07.11.OPT3.FR1.

(The first paragraph of Section 1-02.9 is replaced with the following) Must use once preceding any of the following:

(June 1, 2017)
Use in projects with Federal Transit Administration (FTA) funding, or where FTA is the lead funding agency, that require the use of the Disadvantaged Business Enterprise (DBE) Condition of Award (COA) Participation Goal Requirement. Must use with 1-02.6.OPT1.GR1, 1-02.13.OPT1.GR1 and 1-07.11.OPT8.FR1.

Public Opening of Proposal

(Section 1-02.12 is supplemented with the following) Must use once preceding any of the following:
1-02.12.OPT1.FR1  (Date of Opening Bids)
(August 3, 2015)
Do not use in projects scheduled for Region bid openings.
Use in all projects scheduled for bid openings in Olympia.
(1 fill-in)
Bid opening is held on Wednesday, except in the event of holidays. Should a holiday be observed on the Monday prior to bid opening, bid opening will be held on Thursday of that same week. Contact the HQ Contract Ad & Award Office if additional guidance is necessary.

1-02.13.GR1  Irregular Proposals

1-02.13.INST1.GR1  (In item number 1 of Section 1-02.13, sub-items f through j are revised to read)
Must use once preceding any of the following:

1-02.13.OPT1.GR1  (June 3, 2019)
Use in projects with Federal Transit Administration (FTA) funding, or where FTA is the lead funding agency.

1-02.INST1.GR1  (Section 1-02 is supplemented with the following)
Must use once preceding any of the following:

1-02.OPT1.GR1  (Protest Procedures)
(April 5, 2004)
Include in all contracts with Federal Transit Administration (FTA) funding. Typically only applies to Ferry System and Sound Transit projects.

1-03.GR1  Award and Execution Of Contract

1-03.2.GR1  Award of Contract

1-03.2.INST1.GR1  (The first sentence of Section 1-03.2 is revised to read)
Must use once preceding any of the following:

1-03.2.OPT1.GR1  (Rapid Award of Contract)
(April 7, 2008)
Use only in projects when the Regional Administrator has declared an emergency, and the nature of the emergency requires a rapid award and execution of the contract. Requires approval of HQ Contract Ad and Award Manager.

1-03.3.GR1  Execution of Contract

1-03.3.INST1.GR1  (Section 1-03.3 is supplemented with the following)
Must use once preceding any of the following:

1-03.3.OPT1.GR1  (Execution of Contract)
(August 5, 2013)
Use in projects selected by the Region when it is desired to have Escrow Bid Documentation established for the project. The project must be of significant size and duration to extend over multiple construction seasons.
1-03.3.INST2.GR1  
(The first paragraph of Section 1-03.3 is supplemented with the following)
Must use once preceding any of the following:

1-03.3.OPT3.GR1  
(January 4, 2016)
Use in the Connecting Washington projects listed at

1-04.GR1  
Scope of the Work

1-04.4.GR1  
Changes

1-04.4.INST1.GR1  
(Section 1-04.4 is supplemented with the following)
Must use once preceding any of the following:

1-04.4.OPT1.GR1  
(Electronically Submitted Change Orders)
(April 30, 2020)
Use in all projects.

1-04.5.GR1  
Procedure and Protest by the Contractor

1-04.5.INST1.GR1  
(Section 1-04.5 is supplemented with the following)
Must use once preceding any of the following:

1-04.5.OPT1.GR1  
(Partnering)
(April 2, 2018)
Use in all projects with an Engineer’s estimate of $5 million or greater, and/or Contracts exceeding 200 working days.
At the discretion of the Region, may be used in projects with lesser cost and duration where the project complexity, scope of work, or project conditions support the need to host a Project Specific Partnering workshop. Deletion of this item requires Region Construction Engineer approval.

1-05.GR1  
Control of Work

1-05.3.GR1  
Working Drawings

1-05.3.INST1.GR1  
(Section 1-05.3 is supplemented with the following)
Must use once preceding any of the following:

1-05.3.OPT1.FR1  
(September 3, 2019)
Use in projects that are adjacent to or over railroad tracks and involve the Burlington Northern Railroad or the Union Pacific Railroad Co. Do not use in projects involving only bridge painting, planing bridge decks, or bridge deck overlays. If the 60-day turnaround is critical to the schedule, increase the working days accordingly. (2 fill-ins)
1-05.4.GR1 Conformity With and Deviations from Plans and Stakes

1-05.4.INST1.GR1 (Section 1-05.4 is supplemented with the following)
Must use once preceding any of the following:

1-05.4.OPT1.GR1 (Contractor Surveying - Structure)
(August 7, 2017)
Use in projects requiring the Contractor to do all surveying
needed for bridges and walls. May be edited to retain
portions of surveying for WSDOT crews but editing to
assign additional work to the Contractor requires HQ
Construction Office approval. Do not use for bridge deck
paving existing surfacing profile work (already covered by
Section 6-08.3(2)). Do not use for concrete overlay
existing surfacing profile work (already covered by Section
6-09.3(10)A).

1-05.4.OPT2.GR1 (Contractor Surveying - Roadway)
(August 7, 2017)
Use in projects requiring the Contractor to do all surveying
needed for roadway items. May be edited to retain portions
of surveying for WSDOT crews but editing to assign
additional work to the Contractor requires HQ Construction
Office approval. Must also use 2-03.4.OPT2.GR2 if
roadway excavation or embankment is included in the
project.

1-05.4.OPT3.GR1 (Licensed Surveyors)
(April 4, 2011)
Include in projects requiring the Contractor to supply
professional land surveyors to establish right-of-way lines
and other monuments.

1-05.4.OPT4.GR1 (Contractor Surveying – ADA Features)
(April 2, 2018)
Use in all projects that require any ADA work.
Must use with 8-14.1.OPT1.FR8, 8-14.3.OPT2.FR8, and
8-14.3.OPT3.FR8.

1-05.9.GR1 Equipment

1-05.9.INST1.GR1 (Section 1-05.9 is supplemented with the following)
Must use once preceding any of the following:

1-05.9.OPT1.FR1 (April 7, 2008)
Use in eligible projects that require extensive grading if
adequate design files have already been created during the
design process. Eligible projects are those that require
large areas of linear grading or mass quantities of roadway
excavation, and are in locations where satellite signals are
not obstructed by natural or manmade feature (such as
highly mountainous areas or urban canyons). Requires approval of Region Construction Manager.

Must also use 1-05.4.OPT2.GR1 (Contractor Surveying – Roadway).

(2 fill-ins) The first fill-in describes the type of data to be provided (cross sections Sta. A to B, digital terrain model, etc.) and the file format of the electronic data. The second fill-in is the name and address of the Project Engineer administering the contract.

1-05.9.OPT2.FR1 (Class A Noxious Weeds)

(April 2, 2018)

RCW 17.10.145 requires state agencies to control Class A noxious weeds. Apply this GSP if the project’s SEPA checklist and/or the Region Landscape Architect determine a Class A noxious weed is present in the upland.

Fill-in #1 will contain the name of the Class A noxious weed.

Fill-in #2 will contain the specific instructions how to clean the equipment prior to leaving the project site.

(2 fill-ins)

1-05.9.OPT3.FR1 (Aquatic Invasive Species)

(April 2, 2018)

The Hydraulic Project Approval requires that permit holders prevent the spread of aquatic invasive species. Apply this GSP if the project’s Environmental Review Summary/Environmental Classification Survey determines that an aquatic invasive species is present.

Fill-in #1 will contain the name of the Aquatic Invasive Species.

Fill-in #2 will contain the specific instructions how to clean the equipment prior to leaving the project site.

(2 fill-ins)

1-05.14.GR1 Cooperation With Other Contractors

1-05.14.INST1.GR1 (Section 1-05.14 is supplemented with the following)

Must use once preceding any of the following:

Use when it is anticipated that other projects are, or will be, under construction during the life of this project within the limits of this project or when access to, or through adjacent projects may be necessary.

(1 fill-in)

1-05.14.OPT2.FR1 (Provide Access)

(March 13, 1995)

Use on structure contracts which are separate contracts when other contractors are required to haul past the structure being constructed.

(1 fill-in)
1-06.GR1 Control of Material

1-06.INST1.GR1 (Section 1-06 is supplemented with the following)
Must use once preceding any of the following:

1-06.OPT1.GR1 Buy America
Must use once preceding any of the following:

1-06.OPT1(A).GR1 (Buy America)
(August 6, 2012)
May be used in any Contract at each Regions discretion.
Must use if any of the following apply to this Contract:

• has federal aid for construction
• has or is from a Project or one of several Contracts
  from a Project that has a NEPA decision and
  federal aid was used or anticipated to be used in
  any of the design, right of way, utilities, or
  construction phases of this Contract or in any other
  Contracts

Do not use if using 1-06.OPT1(C).FR1

1-06.OPT1(B).FR1 (Buy America)
(August 6, 2012)
Use if using steel or iron in both permanent and temporary
installations AND any of the following apply to this
Contract:

• has federal aid for construction
• has or is from a Project or one of several Contracts
  from a Project that has a NEPA decision and
  federal aid was used or anticipated to be used in
  any of the design, right of way, utilities, or
  construction phases of this Contract or in any other
  Contracts

Must also use 1-06.OPT1(A).GR1
(1 fill-in)

1-06.OPT1(C).FR1 (Buy America)
(August 6, 2007)
May be used in any Contract at each Regions discretion.
Must use in all projects that require the use of structural
steel when the use of foreign structural steel would result in
a cost benefit approaching 25 percent of the cost of the
total project AND any of the following apply to this
Contract:

• has federal aid for construction
• has or is from a Project or one of several Contracts
  from a Project that has a NEPA decision and
  federal aid was used or anticipated to be used in
  any of the design, right of way, utilities, or
If the structural steel items constitute at least 60 percent of the estimated total project cost, alternate bids for domestic and foreign structural steel will be required. Format for alternate bid item is Item Name - Domestic Steel and Item Name - Foreign Steel. (6 fill-ins) ($$1$$ and $$6$$ will be the same and $$2$$ and $$5$$ will be the same)

1-06.1.GR1 Approval of Materials Prior to Use

1-06.1.INST1.GR1 (Section 1-06.1 is supplemented with the following)

Must use once preceding any of the following:

1-06.1.OPT1.GR1 (April 3, 2017)

May be used on any project with Construction Project Engineer, Region Construction Engineering Manager, or Assistant Regional Administrator approval. Should be considered on projects that contain large or numerous electrical or ITS components.

1-06.6.GR1 Recycled Materials

1-06.6(9-03.21).GR1 (Section 9-03.21, including all subsections, is deleted and replaced with the following):

Must use once preceding any of the following:

1-06.6(9-03.21).OPT1.GR1 (Recycled Material)

(May 20, 2020)

Use in all projects with Hot Mix Asphalt (HMA).

Must use with 5-04.2.OPT1.GR5 and 5-04.2(1)A2.OPT1.GR5.

1-07.GR1 Legal Relations and Responsibilities to the Public

1-07.1.GR1 Laws to be Observed

1-07.1.INST1.GR1 (Section 1-07.1 is supplemented with the following)

Must use once preceding any of the following:

(March 25, 2009)

Use in all projects that contain any amount of ARRA funding.

1-07.1.OPT2.FR1 Lead Health Protection Program

(September 3, 2019)

Use in projects when lead based paint on existing structures and non-structural items will be disturbed (1 fill-in)

1-07.1.OPT3.FR1 Confined Space
Must use when Contractor workers are required to enter a confined space and all other projects where confined spaces are known to exist. Use requires approval of the Region Safety Manager.

A confined space is a space that is ALL of the following:

• Large enough and arranged so an employee could fully enter the space and work.
• Has limited or restricted entry or exit. Examples of spaces with limited or restricted entry are tanks, vessels, silos, storage bins, hoppers, vaults, excavations, and pits.
• Not primarily designed for human occupancy.

Examples of confined spaces include but are not limited to concrete or steel box girder structures, pontoons on floating bridges, existing stormwater/sewer conveyances and vaults, electrical or signal hubs.

Fill-in #1: Include each known confined space that the Contractor may enter to perform the work. Describe identified hazards and experience with each known confined space, if any. Must contact Region Safety office for fill-in information.

COVID-19 Health and Safety Plan (CHSP)
(May 13, 2020)
Use in all projects.
Must use with 1-07.4(2).OPT2.GR1.

Forest Protection and Merchantable Timber Requirements

1-07.3(2).GR1

Merchantable Timber Requirements

1-07.3(2).INST1.GR1

1-07.3.OPT1.GR1

(August 2, 2004)
Use in projects that require work in or adjacent to National Forest Reservations.

Must also use Forest Service Provisions Appendix located at:
http://wsdot.wa.gov/publications/fulltext/ProjectDev/GSPsPDF/1-07.3.Appendix.pdf. Do not include this Appendix in the run-list. On the Final Check sheet (Form 221-019EF) under Contract Make-Up check the box Forest Service Provisions.
1-07.3(2).OPT1.GR1 (Timber Export Restrictions)  
(April 7, 2008)  
Use in projects that have one log truck load  
(approximately 5,000 board feet) or more of  
merchantable timber that is to be cut.

1-07.4.GR1 Sanitation

1-07.4(2).GR1 Health Hazards

1-07.4(2).INST1.GR1 (Section 1-07.4(2) is revised to read)  
Must use once preceding any of the following:

Use in all projects known to be inhabited by transients,  
and all projects known to contain biological or physical  
hazards such as drug paraphernalia, human  
excrement, etc.  
(1 fill-in)

1-07.4(2).INST2.GR1 (Section 1-07.4(2) is supplemented with the following)  
Must use once preceding any of the following:

1-07.4(2).OPT2.GR1 COVID-19 Health and Safety Plan (CHSP)  
(May 13, 2020)  
Use in all projects.  
Must use with 1-07.1.OPT4.GR1.

1-07.5.GR1 Environmental Regulations

1-07.5.INST1.GR1 (Section 1-07.5 is supplemented with the following)  
Must use once preceding any of the following:

1-07.5.OPT1.GR1 Environmental Commitments  
(September 20, 2010)  
An Environmental Commitment Meeting is expected as  
outlined in Division 4 of the Plans Preparation Manual.  
Must use with 1-07.5.OPT2.GR1. Must use once preceding  
any of the following Environmental Commitment GSPs:

1-07.5.OPT1(A).FR1 (August 4, 2014)  
Use if the project includes a requirement for Cultural  
Resource Monitoring.  
(1 fill-in)  
The fill-in can either be a station reference(s), plan  
sheet(s), or a certain depth below an elevation control  
point, etc.

1-07.5.OPT1(B).FR1 (April 1, 2019)  
Use if work is authorized in environmentally sensitive  
areas. Use the Environmental Commitment Meeting to  
determine applicability of this provision for the project.  
(1 fill-in - choose the largest number of days noted in  
your permits/environmental documentation or 15 days,  
whichever is greater.)
1 Use in projects applying either Programmatic Biological Assessment (or Individual BA), Hydraulic Project Approval, or local shoreline conditions where setbacks of certain work are required from sensitive areas like waters of the state, wetlands, or unique upland features.

(3 Fill-ins)

Fill-in #1 defines the contractor activity that is not allowed (e.g. staging, storing material, maintaining equipment, etc.)
Fill-in #2 defines the minimum distance between the contractor activity and the sensitive area.
Fill-in #3 defines the sensitive area(s).

Payment (August 3, 2009)
Must use with 1-07.5.OPT1.GR1.

State Department of Fish And Wildlife

(Section 1-07.5(2) is supplemented with the following)
Must use once preceding any of the following:

Hydraulic Project Approval (April 2, 2018)
An Environmental Commitment Meeting (see Division 4 of the Plans Preparation Manual) is mandatory for all projects to determine the applicability of these requirements.

Must use with 1-07.5(2).OPT2.GR1. Must use once preceding any of the following Hydraulic Project Approval GSPs:

Use in projects with an HPA and a “fish window.”
Fill-in #1 is the start date of the fish window.
Fill-in #2 is the end date.
Consider setting the work completion date one day less than permitted end date. This ensures WSDOT has time to remove the nets, which is technically in-water work.

(2 fill-ins)

Payment (April 2, 2018)
Must use with 1-07.5(2).OPT1.GR1.

State Department of Ecology

(Section 1-07.5(3) is supplemented with the following)
Must use once preceding any of the following:
Water Quality and Resource Protection

(April 2, 2018)

An Environmental Commitment Meeting (see Division 4 of the Plans Preparation Manual) is mandatory for all projects to determine the applicability of these requirements.

Must use with 1-07.5(3).OPT2.GR1. Must use once preceding any of the following Hydraulic Project Approval GSPs:

1-07.5(3).OPT1.A.FR1 (August 3, 2009)
Use in projects having permitted work within waters of the United States and a mixing zone is allowed by the Washington State Department of Ecology.

(1 fill-in)
Fill in No. $$1$$ choose a distance in feet based on either 173-201A of the Washington Administrative Code or the project specific 401 Water Quality Certification from the Washington State Department of Ecology.

1-07.5(3).OPT1.B.GR1 (April 1, 2019)
Use with Contracting Agency owned NPDES Construction Stormwater General Permits (CSWGP). This GSP shall not be used on projects where CSWGP administration will be transferred to the Contractor prior to the start of construction. Additional planning, monitoring, sampling, and reporting requirements, beyond the scope of this GSP, may be required if the project is issued a CSWGP that covers discharges to impaired surface waters, such as those listed on the 303(d) list or in a Total Maximum Daily Load (TMDL) coverage area. Use the Environmental Commitment Meeting to determine applicability of this provision for the project.

1-07.5(3).OPT2.GR1 Payment
(April 2, 2018)
Must use with 1-07.5(3).OPT1.GR1.

1-07.5(5).GR1 U.S. Army Corps of Engineers

1-07.5(5).INST1.GR1 (Section 1-07.5(5) is supplemented with the following)
Must use once preceding any of the following:

1-07.5(5).OPT1.GR1 U.S. Army Corps Nationwide Permit
(April 2, 2018)
An Environmental Commitment Meeting (see Division 4 of the Plans Preparation Manual) is mandatory for all projects to determine the applicability of these requirements.
Must use with 1-07.5(5).OPT2.GR1. Must use once preceding any of the following Hydraulic Project Approval GSPs:

1-07.5(5).OPT1(B).FR1  (February 25, 2013)

Must use when the project requires a U.S. Army Corps of Engineers Nationwide Permit No. 33. The permit provides for temporary fills for up to six months (180 days). The designer must evaluate the length of time needed for temporary fills. Any duration in excess of six months must have received a waiver by the U.S. Army Corps of Engineers. Use the Environmental Commitment Meeting to determine applicability of this provision for the project.

Fill-in No. $$1$$ defines the location of temporary fill(s).

Fill-in No. $$2$$ is number of calendar days of the temporary fill(s) are permitted to be placed.

1-07.5(5).OPT1(C).GR1  (February 25, 2013)

Must use when the project requires a U.S. Army Corps of Engineers Nationwide Permit No. 3, 13, 14, or 33.

1-07.5(5).OPT1(D).GR1  (August 3, 2009)

Use if permits authorize heavy equipment operation in wetlands or mudflats.

1-07.5(5).OPT1(F).GR1  (August 3, 2009)

Use if the project involves disposing of creosoted materials.

1-07.5(5).OPT2.GR1  Payment

(April 2, 2018)

Must use with 1-07.5(5).OPT1.GR1.

1-07.5(6).GR1  U.S. Fish/Wildlife Services and National Marine Fisheries Service

1-07.5(6).INST1.GR1  (Section 1-07.5(6) is supplemented with the following)

Must use once preceding any of the following:

1-07.5(6).OPT1.GR1  (April 2, 2018)

An Environmental Commitment Meeting (see Division 4 of the Plans Preparation Manual) is mandatory for all projects to determine the applicability of these requirements.

Must use with 1-07.5(6).OPT2.GR1. Must use once preceding any of the following GSPs:

1-07.5(6).OPT1(B).GR1  (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #8, where work will be performed between October 1 and June 1. If this GSP is used, please ensure that the Plans indicate where the 100 year floodplain is.

Do not use for Emergency Projects.

1-07.5(6).OPT1(C).FR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #15.
Fill-in #1 is the maximum number of days. Work with the Region Environmental Coordinator.
(1 fill-in)

1-07.5(6).OPT1(D).GR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #27.

1-07.5(6).OPT1(E).GR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #69.

1-07.5(6).OPT1(F).GR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #71.

1-07.5(6).OPT1(G).GR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #73.

This GSP should pertain only to non-bridge projects (i.e. culverts) because treated wood containment for bridges is covered by Section 2-02.3(2)A1 of the Standard Specifications.

1-07.5(6).OPT1(H).FR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #74.
Fill-in #1 is the maximum decibel level.
(1 fill-in)

Use in projects applying Programmatic Biological Assessment Minimization Measure #76.
Fill-in #1 is the waterbody name that has ESA listed species.
(1 fill-in)

1-07.5(6).OPT1(J).FR1 (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #82.
Fill-in #1 is the Washington city nearest to the project location.
(1 fill-in)
1-07.5(6).OPT1(K).FR1  (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #83.
Fill-in #1 is the Washington city nearest to the project location.
(1 fill-in)

Use in projects applying Programmatic Biological Assessment Minimization Measure #84.
Fill-in #1 is the Washington city nearest to the project location.
(1 fill-in)

Use in projects applying Programmatic Biological Assessment Minimization Measure #85.
Fill-in #1 is the Washington city nearest to the project location.

Use in projects applying Programmatic Biological Assessment Minimization Measure #86.
Fill-in #1 is the Washington city nearest to the project location.

1-07.5(6).OPT1(O).GR1  (April 2, 2018)
Use in projects applying Programmatic Biological Assessment Minimization Measure #87.

1-07.5(6).OPT1(P).FR1  (September 3, 2019)
Use in projects applying Programmatic Biological Assessment Minimization Measure #93.
Fill-in #1 is the type of visual or noisy work that is not allowed.
Fill-in #2 is the Washington city nearest to the project location.
(2 fill-ins)

1-07.5(6).OPT2.GR1  Payment
(April 2, 2018)
Must use with 1-07.5(6).OPT1.GR1.

1-07.6.GR1  Permits and Licenses

1-07.6.INST1.GR1  (Section 1-07.6 is supplemented with the following)
Must use once preceding any of the following:

1-07.6.OPT1.FR1  Permits and Licenses
(January 2, 2018)
An Environmental Commitment Meeting is expected as outlined in Division 4 of the Plans Preparation Manual.
This GSP requires editing the data located in the permit table located at:
http://www.wsdot.wa.gov/publications/fulltext/projectdev/EnvironmentalDocumentation/1-07.6.OPT2.FR1_Table.doc,
copying and pasting the revised table inside this fill-in area.
This needs to be edited prior to insertion and final printing to delete all permits that are not required for the project and insert additional permits not part of the original table. All permits will be attached as an Appendix. Include the Department of Ecology permit coverage letter with the CSWGP. If using a Nationwide Permit, attach the most recent U.S. Army Corps of Engineers Nationwide Permit Verification Letter, conditions, and permit drawings.

1-07.6.OPT3.GB1 United States Coast Guard
Must use once preceding any of the following:

1-07.6.OPT3(A).FB1 (January 2, 2018)
Use in projects over navigable waters when the Coast Guard is involved.
(2 fill-ins)

1-07.6.OPT3(B).GB1 United States Coast Guard
(April 2, 2012)
Use in all projects involving bridge work, including painting, in or near the navigable portion of a waterway when 1-07.6.OPT3(A).FB1 is not used.

1-07.7.GR1 Load Limits

1-07.7.INST1.GR1 (Section 1-07.7 is supplemented with the following)
Must use once preceding any of the following:

1-07.7.OPT1.GR1 (March 13, 1995)
Use in projects where all existing roadways are subject to major reconstruction or are to be abandoned or replaced under this project.

1-07.7.OPT2.FR1 (March 13, 1995)
Use in projects where some, but not all, of the existing roadways are subject to major reconstruction, or are to be abandoned or replaced under this project.
(1 fill-in)

1-07.7.OPT3.FR1 (March 13, 1995)
Use when WSDOT provides a materials source and roads other than State highways are designated as the haul route.
(4 fill-ins)

1-07.7.OPT4.FR1 (March 13, 1995)
Use with 1-07.7.OPT3.FR1 when the agreement stipulates additional requirements.
Use in all projects where WSDOT provides a source of materials for part or all required materials.

Use in projects when no source of materials is provided.

Wages

General

Must use once preceding any of the following:

Use in all Federal Aid projects consisting of highway construction and/or landscaping.

Use in Federal Aid projects consisting of both highway and building construction.

Use in Federal Aid projects consisting of only building construction.

Application of Wage Rates For The Occupation Of Landscape Construction (April 2, 2007)
Use in Federal Aid projects that include wage rates for the occupation Landscape Construction. This would be projects with seeding and fertilizing, or landscape work.

For the selection and application of multiple wage schedules see the U.S. Department of Labor ‘ALL AGENCY MEMORANDUM NO. 130’ dated 3/17/1978 at:

For the selection and application of multiple wage schedules see the U.S. Department of Labor ‘ALL AGENCY MEMORANDUM NO. 130’ dated 3/17/1978 at:

Apprentices

requirements for Nondiscrimination
1-07.11.OPT1.GR1 Requirement for Affirmative Action to Ensure Equal Employment Opportunity (September 3, 2019) Use in Federal Aid projects exceeding $10,000 in contract cost.

1-07.11.OPT2.GR1 Disadvantaged Business Enterprise (DBE) Participation (April 3, 2018) REQUIREMENTS PERTAINING TO "No DBE Goals" Use on all Federal Aid projects unless 1-07.11.OPT3.FR1 is used. The "No DBE Goals" is to be furnished or verified by the Office of Equal Opportunity.

1-07.11.OPT3.FR1 Underutilized Disadvantaged Business Enterprise (UDBE) Participation. (November 4, 2019) Requires a CONDITION-OF-AWARD GOAL Use in selected Federal Aid projects with UDBE Condition of Award (COA) goals. The final COA UDBE Goal is to be furnished or verified by the Office of Equal Opportunity. Use of Underutilized Disadvantaged Business Enterprise Utilization Certification (DOT Form 272-056U) and use of Underutilized Disadvantaged Business Enterprise Written Confirmation Document (DOT Form 422-031U) is required in the proposal. Must use with 1-02.6.OPT2.GR1 and 1-02.9.OPT1.GR1 (1 fill-in) The fill-in shall be one of the following formats: ___ percent (___%) of the contract total for COA UDBE goals; or ___ dollars for COA UDBE goals Do not use in projects with Federal Transit Administration (FTA) funding, or where FTA is the lead funding agency (use 1-07.11.OPT8.FR1 instead). Do not use with 1-07.11.OPT7.GR1 or 1-07.11.OPT8.FR1.

1-07.11.OPT4.FR1 Special Training Provisions (April 3, 2017) Use in all Federal Aid projects with more than 50 working days that contain Training (Obtain Training Decision & Fill-in from OEO office). (1 fill-in) Note: Fill-in is Total Hours.

1-07.11.OPT5.GR1 Voluntary Minority, Small, Veteran and Women's Business Enterprise (MSVWBE) Participation (January 7, 2019) Use in all State funded (100%) projects with an estimated cost of $250,000 or more.

1-07.11.OPT7.FR1 Federal Small Business Enterprise (FSBE) Participation
Use in selected Federal Aid projects with Federal Small Business Enterprise (FSBE) goals. The FSBE Goal is to be furnished or verified by the Office of Equal Opportunity.

(1 fill-in) The fill-in shall be in the following format:

___ percent (___%) of the contract total for FSBE goals; or
___ dollars for FSBE goals

**Do not use with 1-07.11.OPT3.FR1.**

**1-07.11.OPT8.FR1** Disadvantaged Business Enterprise (DBE) Condition of Award Participation.

(June 1, 2017)

Requires a CONDITION-OF-AWARD GOAL

Use in projects with Federal Transit Administration (FTA) funding, or where FTA is the lead funding agency, and the project contains DBE Condition of Award (COA) goals. The final COA DBE Goal is to be furnished or verified by the Office of Equal Opportunity.

Use of **Disadvantaged Business Enterprise Utilization Certification** (DOT Form 272 056) and use of **Disadvantaged Business Enterprise Written Confirmation Document** (DOT Form 422-031) is required in the proposal.

Must use with **1-02.6.OPT1.GR1, 1-02.9.OPT2.GR1 and 1-02.13.OPT1.GR1.**

(1 fill-in) The fill-in shall be one of the following formats:

___ percent (___%) of the contract total for COA DBE goals; or
___ dollars for COA DBE goals

**Do not use with 1-07.11.OPT3.FR1 or 1-07.11.OPT6.GR1.**

**1-07.12.GR1** Federal Agency Inspection

**1-07.12.INST1.GR1** (Section 1-07.12 is supplemented with the following)

Must use once preceding any of the following:

**1-07.12.OPT1.GR1** (January 25, 2016)

Use in all Federal Aid projects.

**1-07.12.OPT2.FR1** Indian Preference And Tribal Ordinances

(August 1, 2011)

Use in projects with any portion of the project on an Indian reservation.

(3 fill-ins) ($$1$$ is the Tribe or Reservation; $$2$$ is the Group(s) as shown on the Summary of Quantities where Work is performed on Tribal Lands, $$3$$ is the Tribal representative, telephone and address.)

**1-07.13.GR1** Contractor’s Responsibility for Work

**1-07.13(4).GR1** Repair of Damage

**1-07.13(4).INST1.GR1** (Section 1-07.13(4) is revised to read)
Must use once preceding any of the following:

1-07.13(4).OPT1.GR1  (August 6, 2001)
At the Region's discretion, include in projects when the use of "Reimbursement for Third Party Damage" is NOT desired and the Region wants to set up another method of reimbursement for third party damages.

1-07.16.GR1  Protection and Restoration of Property

1-07.16(2).GR1  Vegetation Protection and Restoration

1-07.16(2).INST1.GR1  (Section 1-07.16(2) is supplemented with the following)
Must use once preceding any of the following:

1-07.16(2).OPT1.GR1  (August 2, 2010)
Use in projects to specify preservation of existing desirable vegetation.

1-07.16(4).GR1  Archaeological and Historical Objects

1-07.16(4).INST1.GR1  (Section 1-07.16(4) is supplemented with the following)
Must use once preceding any of the following:

1-07.16(4).OPT1.GR1  (December 6, 2004)
Use in projects when reconnaissance studies indicate that there is the probability of finding cultural remains within the project limits which will require monitoring the project area during clearing, grubbing or excavation operations. Requires a pay item.

1-07.17.GR1  Utilities and Similar Facilities

1-07.17.INST1.GR1  (Section 1-07.17 is supplemented with the following)
Must use once preceding any of the following:

1-07.17.OPT1.FR1  (April 2, 2007)
Use in projects where there are utilities within the R/W that will not be adjusted, replaced or constructed by the utility owner or its contractor during the prosecution of the work. (1 fill-in)

(May use with 1-07.17.OPT2.FR1 if utilities other than those described in this provision will be adjusted, replaced or constructed by the utility owner during the prosecution of the work.)

1-07.17.OPT2.FR1  (April 2, 2007)
Use in projects where there are utilities within the R/W and those utilities will be adjusted, relocated or replaced by the utility owner or its contractor during the performance of the contract, or when the utility owner or its contractor will construct new utilities within the R/W during the performance of the contract.
(3 fill-ins) ($$1$$ is a description and location of the work
the each utility owner or its contractor will complete, and
the duration of that work or anticipated date of completion
by each utility or its contractor. $$2$$ is the name of the
utility company or companies, contact person, address,
telephone number and e-mail address or other contact
information as required to enable the Contractor to identify
and contact each utility performing work during the life of
the contract. $$3$$ is a description of any additional
requirements that the contractor must perform in order to
coordinate with the utility owner or its contractor, such as
advance notifications to be provided to the utility for staged
work.

(Use with 1-07.17.OPT1.FR1 if other utilities exist within
the R/W that will not be adjusted, relocated or replaced by
the utility owner.)

**1-07.18.GR1**  
**Public Liability and Property Damage Insurance**

1-07.18.INST1.GR1  
(Item No. 1 of the first paragraph of Section 1-07.18
is revised to read)
Must use once preceding any of the following:

1-07.18.OPT1.FR1  
Owners and Contractors Protective Insurance
(January 3, 2011)
Use in projects when the Engineer's estimate is in excess
of $10 million or in projects under $10 million when in the
Engineer's judgment the project involves higher than
normal risk(s). The project office should contact the Risk
Management & Legal Services Division, Administrative
Risk Manager (360) 704-6360 to discuss the project's risks.
The Administrative Risk Manager will advise the region as
to the need to require the additional insurance, and if so,
will provide the fill in amount. This GSP should not be used
if the fill-in amounts match the values listed in the Standard
Specifications.
(1 fill-in)

1-07.18.OPT2.GR1  
Reduced Insurance Requirement
(January 5, 2004)
Use in all projects when the Engineer's estimate is $500,000
or less.
**Do not use with 1-07.18.INST1.GR1 because this GSP deletes Item number 1 in the first paragraph of Section 1-
07.18.**
Must use with 1-07.18.OPT6.GR1.

1-07.18.INST2.GR1  
(Item No. 2 of the first paragraph of Section 1-07.18
is revised to read)
Must use once preceding any of the following:

1-07.18.OPT6.GR1  
Reduced Insurance Requirement
(January 3, 2011)
1 Use in all projects when the Engineer's estimate is
2 $500,000 or less.
3 Must use with 1-07.18.OPT2.GR1.

1-07.18.OPT7.FR1 Commercial General Liability (CGL)
(April 1, 2013)
Use in projects when the Engineer's estimate is in excess
of $10 million or in projects under $10 million when in the
Engineer's judgment the project involves higher than
normal risk(s). The project office should contact the Risk
Management & Legal Services Division, Administrative
Risk Manager (360) 704-6360 to discuss the project’s risks.
The Administrative Risk Manager will advise the region as
to the need to require the additional insurance, and if so,
will provide the fill in amounts. This GSP should not be
used if the fill-in amounts match the values listed in the
Standard Specifications.
(2 fill-ins)

1-07.18.INST4.GR1 (Section 1-07.18 is supplemented with the following)
Must use once preceding any of the following:

1-07.18.OPT11.GR1 Builders Risk Insurance
(January 3, 2011)
Use in projects when in the Engineer’s judgment the
project facilities themselves may be exposed to significant
damage. The Project Office should contact the
Administrative Risk Manager, at the Risk Management &
Legal Services Division to discuss any high risk
components of the project regarding damage to
departmental owned/rented facilities or assets. The
Administrative Risk Manager will advise the region as to
the need to require the additional insurance.
CAUTION: Using this provision will result in significantly
higher project costs.

1-07.18.OPT14.FR1 Pollution Liability Insurance
(January 7, 2013)
Use in all projects where in the Engineer’s judgment the
Work involves remediation of Environmental hazards, the
Contractor shall obtain Contractor’s Pollution Liability
Insurance. The Project Office should contact the
Administrative Risk Manager, at the Risk Management &
Legal Services Division, to discuss the Projects
Environmental risks to determine if Contractor’s Pollution
Liability Insurance (CPL) is needed. The Administrative
Risk Manager will advise the region as to the need to
require the additional insurance, and if so, provide the fill in
amount.
(1 fill in)

1-07.18.OPT16.FR1 Relations With Railroad
(April 1, 2013)
Use in projects when a railroad is involved in the contract.
(5 fill-ins) ($$1$$ is list of railroad companies involved in contract; $$2$$ is amount of advance notice contractor is required to provide the Railroad prior to working adjacent to tracks; $$3$$ is name, address and telephone of the railroad contact person; $$4$$ is a list of work to be performed by the Railroad, other than flagging, as specified in the Railroad agreement; and $$5$$ is the Appendix number that lists the Right of Entry Agreement.

The design office shall contact the Environmental & Engineering Program Design Office, Railroad Liaison Engineer (360) 705-7271 for the fill in information.

1-07.18.OPT17.GR1 Auto And Workers Compensation Insurance -BNSF
(August 7, 2006)
Use with 1-07.18.OPT16.FR1 when BNSF is involved in the contract. Must include Contractor’s Right of Entry and BNSF’s Contractor Requirements as appendices. Contact the Environmental & Engineering Program Design Office, Railroad Liaison Engineer (360) 705-7271 for appendices.

1-07.18.OPT18.GR1 Auto And Workers Compensation Insurance -UPRR
(August 7, 2006)
Use with 1-07.18.OPT16.FR1 when UPRR is involved in the contract. Must include Contractor’s Right of Entry and UPRR Contractor Requirements as appendices. Contact the Environmental & Engineering Program Design Office, Railroad Liaison Engineer (360) 705-7271 for appendices.

1-07.23.GR1 Public Convenience and Safety

1-07.23(1).GR1 Construction Under Traffic

1-07.23(1).INST1.GR1 (Section 1-07.23(1) is supplemented with the following)
Must use once preceding any of the following:

1-07.23(1).OPT1.FB1 (Traffic Restrictions)
(March 13, 1995)
Use in bridge painting projects.
(1 fill-in)

1-07.23(1).OPT2.GR1 (Work Zone Clear Zone)
(February 3, 2020)
Use in all projects that require traffic control unless the conditions described in Design Manual Chapter 1010 warrant a more restrictive special provision.

1-07.23(1).OPT4.GR1 (Temporary Access Breaks)
(December 6, 2004)
Use to allow temporary access to the traveled way at locations other than those defined in Standard Specifications 1-07.23(1). Consider for use on all limited access facilities, and on non-interstate limited access.
Requires Region Approval for all projects. Requires FHWA Approval for use on limited access interstate facilities (allow 30 days minimum for approval).
Requires Headquarters State Design Engineer approval for use on non-interstate limited access facilities. Region Project Development shall insure that site conditions meet the criteria contained in the provision. Region Construction and Traffic Offices should concur with projects selected for use. Contact Headquarters Design, Access and Hearings Engineer for guidance.

1-07.23(1).OPT5.FR1 (Lane Closure Restrictions)
(January 5, 2015)
Use in projects that prohibit lane closures prior to a holiday, and where traffic volumes require that lane closures are restricted.
(3 Fill-ins) Fill-in #1 describes the specific facility or location and the hours that closures are allowed. Fill-ins #2 and #3 designate the period of time over a holiday weekend when closures will not be allowed.

1-07.23(1).OPT6.GR1 (Accommodating Oversized Loads through the Work Zone)
(April 14, 2014)
Use in projects on the following routes:
I-5, I-405, I-90, I-82, I-182, SR 18, SR 167 and US 395 (Tri-Cities to Spokane)
If there is the potential for the travelled way to be reduced to less than 16 feet
The designer is authorized to modify this specification as necessary to coordinate with the rest of the contract provisions that may contradict, provided the intent of the GSP is maintained. The intent being; provide a clear width of at least 16 feet to accommodate a wide load, provide windows of time to accommodate a wide load (if possible) and/or provide notice as described. Changes in this specification should be coordinated with Commercial Vehicle Services.
This specification requires that the Engineer must approve any proposed reduction of the travelled way to a single lane with a clear width of less than 16 feet for duration of 4 calendar days or more.

1-07.24.GR1 Rights of Way
1-07.24.INST1.GR1  (Section 1-07.24 is supplemented with the following)
Must use once preceding any of the following:
1-07.24.OPT1.FR1  (March 13, 1995)
Use in projects when it is possible that the right of way will not be fully acquired at the time of award.
1-08.GR1 Prosecution and Progress

1-08.1.GR1 Subcontracting

1-08.1.INST1.GR1 (Section 1-08.1 is supplemented with the following)
Must use once preceding any of the following:

1-08.1.OPT1.GR1 (Subcontracting)
(June 3, 2019)
Use in all Federal Aid projects.

1-08.1.OPT2.FR1 Speciality Items
(March 13, 1995)
Use in projects when unusual work will likely have to be subcontracted. Obtain concurrence from Pre-contract Administration.
(1 fill-in)

1-08.1.OPT3.GR1 Qualifications Of Building Contractor
(March 13, 1995)
Use in road construction projects that also include building construction.

1-08.3.GR1 Progress Schedule

1-08.3(1).GR1 General Requirements

1-08.3(1).INST1.GR1 (The first sentence of Section 1-08.3(1) is revised to read)
Must use once preceding any of the following:

1-08.3(1).OPT1.GR1 (August 7, 2006)
Include in complex or high impact projects as described for GSP 1-08.3(2).OPT2.GR1 at the discretion of the Region Construction Manager. Use requires the approval of the HQ Construction Office.
Must include with 1-08.3(2).GR1, 1-08.3(2).OPT2.GR1, 1-08.3(3).OPT1.GR1, 1-08.3(4).OPT1.GR1, and 1-08.3(5).OPT1.GR1.

1-08.3(2).GR1 Progress Schedule Types

1-08.3(2).INST2.GR1 (Section 1-08.3(2) is revised to read)
Must use once preceding any of the following:

1-08.3(2).OPT1.GR1 (August 1, 2011)
Include in complex or high impact projects as described for GSP 1-08.3(2).OPT2.GR1 at the discretion of the Region Construction Manager. Use requires the approval of the HQ Construction Office.
Must include with 1-08.3(1).OPT1.GR1, 1-08.3(2).OPT2.GR1, 1-08.3(3).OPT1.GR1, 1-08.3(4).OPT1.GR1, and 1-08.3(5).OPT1.GR1.
1-08.3(2).INST3.GR1  (Section 1-08.3(2) is supplemented with the following)
Must use once preceding any of the following:

1-08.3(2).OPT2.GR1  (Type C Progress Schedule)
(August 1, 2016)
Include in complex or high impact projects under the following conditions:

The Engineers Estimate exceeds $15 million or Time for Completion exceeds 180 working days, and when the project includes some or all of the following characteristics: multiple traffic shifts and staged construction is required; complete closure of ramps, surface streets, or interstate is required; designated detour routes require inter-agency agreements; state supplied materials and resources require significant advanced coordination; utility relocation by others is dependent on staged construction; significant impacts to businesses and communities require regular public information reports; commitments to funding partners (not legislative) for specific completion timeframes are documented to exist.

Use requires concurrence of the Region Construction Manager and the approval of the HQ Construction Office. Must include with 1-08.3(1).OPT1.GR1, 1-08.3(2).OPT1.GR1, 1-08.3(3).OPT1.GR1, 1-08.3(4).OPT1.GR1, and 1-08.3(5).OPT1.GR1.

1-08.3(3).GR1  Schedule Updates

1-08.3(3).INST1.GR1  (Section 1-08.3(3) is revised to read)
Must use once preceding any of the following:

1-08.3(3).OPT1.GR1  (January 2, 2012)
Include in complex or high impact projects as described for GSP 1-08.3(2).OPT2.GR1 at the discretion of the Region Construction Manager. Use requires the approval of the HQ Construction Office. Must include with 1-08.3(1).OPT1.GR1, 1-08.3(2).OPT1.GR1, 1-08.3(3).OPT1.GR1, 1-08.3(4).OPT1.GR1, and 1-08.3(5).OPT1.GR1.

1-08.3(4).GR1  Measurement

1-08.3(4).INST1.GR1  (Section 1-08.3(4) is revised to read)
Must use once preceding any of the following:

1-08.3(4).OPT1.GR1  (August 5, 2013)
Include in complex or high impact projects as described for GSP 1-08.3(2).OPT2.GR1 at the discretion of the Region Construction Manager. Use requires the approval of the HQ Construction Office. Must include with 1-08.3(1).OPT1.GR1, 1-08.3(2).OPT1.GR1, 1-08.3(3).OPT1.GR1, and 1-08.3(5).OPT1.GR1.
1-08.3(5).GR1 Payment

1-08.3(5).INST1.GR1 (Section 1-08.3(5) is revised to read)
Must use once preceding any of the following:

1-08.3(5).OPT1.FR1 (January 7, 2019)
Include in complex or high impact projects as described for GSP 1-08.3(2).OPT2.GR1 at the discretion of the Region Construction Manager. Use requires the approval of the HQ Construction Office. Must include with 1-08.3(1).OPT1.GR1, 1-08.3(2).OPT1.GR1, 1-08.3(2).OPT2.GR1, 1-08.3(3).OPT1.GR1, and 1-08.3(4).OPT1.GR1.

1-08.3(5).OPT2.FR1 (January 7, 2019)
Use in projects that have a Type B or Type C minimum bid schedule.
(4 fill-ins)
Fill-in #1 is the schedule type.
Fill-in #2 is the minimum bid amount.
Fill-in #3 is the schedule type.
Fill-in #4 is the schedule type.
Must use with 1-02.6.OPT6.FR1.

1-08.4.GR1 Prosecution of Work

1-08.4.INST1.GR1 (The first sentence of Section 1-08.4 is revised to read)
Must use once preceding any of the following:

1-08.4.OPT1.FR1 (Establish starting date for roadway operations)
(August 3, 2015)
Must also use 1-08.5.OPT9.FR1.
At the discretion of the Region Administrator, use in short term projects when a delayed start is desirable to allow the Contractor some latitude in scheduling the work.
Recommendation by the Region Construction Office is advised.
(1 fill-in)

1-08.4.OPT2.GR1 (Variable start: State controls start)
(August 7, 2006)
Use in contracts where the contractor shall start work immediately after a happening or event to avoid high impacts to the public. At the time of issuance of the contract the date of that event or happening is not known. Region Construction Engineer, or equivalent, approval is required to use this provision. Must include 1-08.5.OPT1.FR1 and 1-08.5.OPT7.FR1.

1-08.4.OPT3.FR1 (Fixed start: State controls start)
(August 7, 2006)
Use in contracts where the contractor shall start work immediately after a happening or event to avoid high
impacts to the public. At the time of issuance of the contract the date of that event or happening is known. Region Construction Engineer, or equivalent, approval is required to use this provision. Must include 1-08.5.OPT2.FR1 and 1-08.5.OPT7.FR1.

1-08.5.GR1

Time for Completion

1-08.5.INST1.GR1 (The third paragraph of Section 1-08.5 is revised to read)

Must use once preceding any of the following:

1-08.5.OPT1.FR1 (Variable start: State controls start)
(August 7, 2006)
Use in contracts where the contractor shall start work immediately after a happening or event to avoid high impacts to the public. At the time of issuance of the contract the date of that event or happening is not known. Region Construction Engineer, or equivalent, approval is required to use this provision. Must include 1-08.4.OPT2.GR1 and 1-08.5.OPT7.FR1.

(2 fill-ins) Fill-ins are contract start times.

1-08.5.OPT2.FR1 (Fixed start: State controls start)
(August 7, 2006)
Use in contracts where the contractor shall start work immediately after a happening or event to avoid high impacts to the public. At the time of issuance of the contract the date of that event or happening is known. Region Construction Engineer, or equivalent, approval is required to use this provision. Must include 1-08.4.OPT3.FR1 and 1-08.5.OPT7.FR1.

(1 fill-in) Fill-in is contract start time.

1-08.5.INST2.GR1 (Section 1-08.5 is supplemented with the following)

Must use once preceding any of the following:

1-08.5.OPT7.FR1 (Time for physical completion)
(March 13, 1995)
Use in all projects not requiring one of the following "TIME FOR COMPLETION" GSP's.
(1 fill-in)

1-08.5.OPT8.FR1 (Time for physical completion)
(March 13, 1995)
Must also use 1-08.9.OPT1.FR1.
Use in projects requiring an interim or temporary controller for early use of a signal system and where an intermediate physical completion time is required.
(2 fill-ins)

1-08.5.OPT9.FR1 (Time for physical completion)
(December 4, 2006)
Must also use 1-08.4.OPT1.FR1.
(2 fill-ins)
Fill-in #2 is the same as fill-in #1 for 1-08.4.OPT1.FR1.

1-08.5.OPT10.FR1 (Time for physical completion)
(March 13, 1995)
Use in projects with signal work and the Contracting Agency furnishes the signal control equipment.
(1 fill-in)

1-08.5.OPT11.FR1 Incentive For Early Completion
(August 4, 2003)
Use in projects requiring an incentive for early completion.
Prior approval from the State Construction office is required for the use of this GSP.
(4 fill-ins)
$$1$$, $$2$$ and $$3$$ are substantial or physical, $$4$$ is dollar value established by the Region, must be justified by road user costs.

1-08.6.GR1 Suspension of Work

1-08.6.INST1.GR (Section 1-08.6 is supplemented with the following)
Must use once preceding any of the following:

1-08.6.OPT1.FR1 (Procurement Suspension)
(January 3, 2017)
Requires approval of HQ Construction. Use in projects requiring materials that have long lead times for procurement or fabrication, or proprietary/specialized materials, HMA Mix Design evaluation, and procurement of the materials or HMA Design evaluation is a controlling factor in the time for completion. Not recommended if material procurement or mix design approval are not critical path items. Use 1-08.6.OPT2.FR1 instead, if project does not include HMA paving.

Fill-in #1 identifies materials that are critical for timely completion and require fabrication or long lead times for procurement. Examples of critical materials may include: Hot Mix Asphalt, landscaping (cultivated) items, permanent signing, steel guardrail posts, ITS equipment, modular expansion joints, bridge railing, hydraulic/electrical rehabilitation components, bridge girders, steel jackets for seismic retrofits, castings, single-source drain pipe, signal controllers, light standards, or signal standards.

Fill-in #2 limits the duration of the suspension for acquisition of critical materials. The duration of the suspension should be appropriate for the work being performed, and will vary according to the type of materials required.

The use of a short duration may be impossible to achieve or may raise the cost of the project.
(2 fill-ins)
1-08.6.OPT2.FR1 (Procurement Suspension
January 2, 2018)
Use in projects requiring materials that have long lead
times for procurement or fabrication, or
proprietary/specialized materials, and procurement of the
materials is a controlling factor in the time for completion.
(1 fill-in)

1-08.9.GR1 Liquidated Damages

1-08.9.INST2.GR1 (Section 1-08.9 is revised to read)
Must use once preceding any of the following:

1-08.9.OPT3.FR1 (Liquidated Damages)
December 2, 2019
Use in all projects advertised on or after December 2, 2019.
(1 fill-in)
Fill-in shall be the amount determined by the Design
Liquidated Damages Calculation Sheet. For more

1-08.9.OPT1.FR1 (Failure to complete temporary signal system)
March 13, 1995
Use in projects requiring an interim or temporary controller
for early use of a signal system and where an intermediate
physical completion time is required. The Region must
determine the appropriate liquidated damages based on
road user costs.
Must also use 1-08.5.OPT8.FR1 and 1-08.9.OPT3.FR1.
(1 fill-in)

1-08.9.OPT2.FR1 (Interim Completion Liquidated Damages)
April 6, 2009
Use in projects where an interim completion time is desired
(such as the completion of a stage of work, lane closure, or
ITS disruption), and the Region determines that user costs
for failure to complete the specified portion of work, as
calculated by the Transportation Data Office, are significant
even to warrant liquidated damages. Determination of
the liquidated damage amount must adhere to Chapter
700.01 of the Plans Prep Manual.
(6 fill-ins) $$1$$ describes the work to be completed;
$$2$$ is the user cost; $$3$$ and $$4$$ is the unit
of time (minutes, hours or days); $$5$$ is the smallest increment
of time that will be measured; and $$6$$ is the contract
provision that specifies the completion time.
Must also use 1-08.9.OPT3.FR1.

1-09.GR1 Measurement and Payment

1-09.2.GR1 Weighing Equipment
1-09.2(1).GR1  General Requirements for Weighing Equipment

1-09.2(1).INST1.GR1 (Section 1-09.2(1) is revised to read as follows) Must use once preceding any of the following:

1-09.2(1).OPT1.GR1 (January 3, 2011) If the Region chooses the General Special for Contractor Weighing can be inserted. This provision requires the Contractor to supply a scale operator. But it goes much further. If this provision is used, the entire weighing operation becomes an end product specification. The Contractor weighs the trucks and issues the tickets without oversight of the scale, the operator or the operation while it’s going on. The oversight occurs after the truck leaves the scale, when the inspector will randomly select loads and send them to an independent scale. Variations between the ticket and the check weights will result in pay adjustments. Must include 1-09.2(1).OPT7.FR1 or 1-09.2(1).OPT8.GR1. Must also use 1-09.2(2).OPT1.GR1, 1-09.2(3).OPT1.GR1, 1-09.2(4).OPT1.GR1, 1-09.2(5).OPT1.GR1 and 1-09.2(6).OPT1.GR1.

1-09.2(1).INST2.GR1 (Section 1-09.2(1) is supplemented with the following) Must use once preceding any of the following:

1-09.2(1).OPT7.FR1 (Designated Scale) (August 6, 2001) The location and quality of the check scale become important. It will be up to the Region to find an independent scale and arrange for its use (including an agreement to pay fees). This selection will have to be made jointly with the Construction PE, taking into account convenience and haul time to get to the scale. The decision is communicated to bidders through a second GSP designating a scale location. Fill-in is scale location. Must use with 1-09.2(1).OPT1.GR1 if 1-09.2(1).OPT8.GR1 isn’t used. (1 fill-in).

1-09.2(1).OPT8.GR1 (Installed Scale) (January 3, 2011) If the Region desires to use Contractor weighing and cannot find a convenient scale, then an alternate to the designated scale has been prepared. The GSP for installed scale directs the Contractor to provide and install the check scale at a designated location. This provision contains a lump sum pay item for the work. Must use with 1-09.2(1).OPT1.GR1 if 1-09.2(1).OPT7.FR1 is not used.

1-09.2(2).GR1  Specific Requirements for Batching and Hopper Scales

1-09.2(2).OPT1.GR1 (August 6, 2001)
This GSP deletes Section 1-09.2(2).
Must use with 1-09.2(1).OPT1.GR1.

1-09.2(3).GR1  Specific Requirements for Platform Scales

1-09.2(3).OPT1.GR1  (August 6, 2001)
This GSP deletes Section 1-09.2(3).
Must use with 1-09.2(1).OPT1.GR1.

1-09.2(4).GR1  Specific Requirements for Belt Conveyor Scales

1-09.2(4).OPT1.GR1  (August 6, 2001)
This GSP deletes Section 1-09.2(3).
Must use with 1-09.2(1).OPT1.GR1.

1-09.2(5).GR1  Measurement

1-09.2(5).INST1.GR1  (Section 1-09.2(5) is revised to read as follows)
Must use once preceding any of the following:

1-09.2(5).OPT1.GR1  (January 3, 2011)
Must use with 1-09.2(1).OPT1.GR1.

1-09.2(6).GR1  Payment

1-09.2(6).INST1.GR1  (Section 1-09.2(6) is revised to read as follows)
Must use once preceding any of the following:

1-09.2(6).OPT1.GR1  (January 3, 2011)
Must use with 1-09.2(1).OPT1.GR1.

1-09.2(6).INST2.GR1  (Section 1-09.2(6) is supplemented with the following)
Must use once preceding any of the following:

1-09.2(6).OPT7.GR1  (Installed Scale)
Must use with 1-09.2(1).OPT8.GR1.

1-09.3.GR1  Scope of Payment

1-09.3.INST1.GR1  (Section 1-09.3 is supplemented with the following)
Must use once preceding any of the following:

1-09.3.OPT1.FR1  Fuel Cost Adjustment
(August 7, 2017)
Use requires Region Construction Manager Approval and concurrence from HQ Construction Administration. At the Region’s discretion, use in projects with more than 200 working days that include any of the bid items that are eligible for adjustment. Include an estimated amount for the bid item “Fuel Cost Adjustment” in the Engineers Estimate. Only the items described below are eligible for adjustment.

(2 or more fill-ins) Fill-ins are the bid items that are eligible for adjustment, and fuel usage factors for those bid items.

To determine which Bid Items are eligible for Adjustment:
If the bid proposal contains items that fit the description of the items listed below, then those bid items are eligible for adjustment.

<table>
<thead>
<tr>
<th>Eligible Bid Item</th>
<th>Fuel Usage Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>____ Excavation Incl. Haul, per cubic yard</td>
<td>0.29 gal/cy</td>
</tr>
<tr>
<td>____ Excavation Incl. Haul – Area</td>
<td>0.29 gal/cy</td>
</tr>
<tr>
<td>____ Borrow Incl. Haul, per cubic yard</td>
<td>0.25 gal/cy</td>
</tr>
<tr>
<td>____ Borrow Incl. Haul, per ton</td>
<td>0.17 gal/ton</td>
</tr>
<tr>
<td>Structure Excavation Class _____</td>
<td></td>
</tr>
<tr>
<td>Incl. Haul, per cubic yard</td>
<td>0.25 gal/cy</td>

</tbody>
</table>

Determine the Engineers Estimate for the bid item “Fuel Cost Adjustment”:

Base Fuel Cost and Estimated Monthly Fuel Cost:

Obtain the most current Monthly fuel price from the U.S. Energy Information Administration website. The website location and directions are as follows:

- [http://www.eia.gov/petroleum/gasdiesel/](http://www.eia.gov/petroleum/gasdiesel/)
- On the web page, click on the West Coast less California, listed under the heading U.S On-Highway Diesel Fuel Prices*(dollar per gallon) at the lower end of the web page.
- In the pull down box labeled Period pull down Monthly.
- Click on the fuel price history found under the column heading View History for the line Diesel (On-Highway) – All Types.
Multiply the Base Fuel Cost by the appropriate Contract Duration Factor (below) to determine the Estimated Monthly Fuel Cost.

<table>
<thead>
<tr>
<th>Contract Duration</th>
<th>Contract Duration Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>200 Working days to 1 year</td>
<td>1.12</td>
</tr>
<tr>
<td>1 to 2 years</td>
<td>1.25</td>
</tr>
<tr>
<td>2 to 3 years</td>
<td>1.37</td>
</tr>
<tr>
<td>3 to 4 years</td>
<td>1.49</td>
</tr>
<tr>
<td>4 to 5 years</td>
<td>1.62</td>
</tr>
</tbody>
</table>

Estimate the amount of the Adjustment:
Use the formulas below.

\[
\text{Adjustment} = (\text{Est. Monthly Fuel Cost} - (1.10 \times \text{Base Fuel Cost})) \times Q
\]

Where \( Q = \left( (\text{Fuel Usage Factor}) \times (\text{Total Quantity of each Eligible Bid Item}) \right) \) for all Eligible Bid Items.

Sample Calculation:
My project is 300 working days. It contains 10,000 tons of HMA Cl. 1/2" PG 70-22, and 500 tons of CSBC.

HMA Cl. 1/2" PG 70-22 is Eligible for Adjustment. Crushed Surfacing Base Course is Eligible for Adjustment.

From U.S. Energy Information Administration website:
most recent Monthly Fuel Price = 3.06 dollars per gallon. This monthly price becomes the Base Fuel Cost.

Therefore:
Base Fuel Cost = 3.06 dollars/gal
Est. Monthly Fuel Cost = Base Fuel Cost x Contract Duration Factor
Est. Monthly Fuel Cost = 3.06 x 1.25 = 3.825 dollars/gal

\[
Q = (0.70 \text{ gal/ton} \times 500 \text{ tons}) + (0.90 \text{ gal/ton} \times 10,000 \text{ tons})
\]

\[
Q = 9,350 \text{ gal}
\]

Adjustment = (3.82 dollars/gal – (1.10 x 3.06 dollars/gal)) x 9,350 gal

Adjustment = $4,291.65 = $4,300

1-09.3.OPT2.FR1 Steel Cost Adjustments
(August 6, 2018)
Use in all projects that use quantities of steel in excess of 50,000 pounds, including non-proprietary walls, pedestrian bridges and vehicular bridges.
Fill-in #1 is the initial cost basis of steel and should use a value of $0.40/lb. Any deviation from the default value of $0.40/lb requires approval of the HQ Construction Office.

Fill-in #2 is a list of the bid items that are eligible for steel cost adjustment. This can include bid items that are entirely composed of steel (e.g., Steel Reinforcing Bar for Bridge) and can also include lump sum items that use significant quantities of steel (e.g., Superstructure, Lump Sum). Contact the HQ Strategic Analysis and Estimating Unit for assistance preparing the Engineer's Estimate for the bid item "Steel Cost Adjustment."

(2 fill-ins)

1-09.8.GR1 Payment for Material On Hand

1-09.8.INST1.GR1 (The last paragraph of Section 1-09.8 is revised to read) Must use once preceding any of the following:

1-09.8.OPT1.GR1 (August 3, 2009) Use in projects that are over $2 million and have more than 120 working days.

1-09.9.GR1 Payments

1-09.9.INST1.GR1 (Section 1-09.9 is supplemented with the following) Must use once preceding any of the following:

1-09.9.OPT1.FB1 (March 13, 1995) Use when items are designated for payment by proposal quantity. Must be used only for retaining walls and bridge substructure items for steel reinforcing bars, epoxy-coated steel reinforcing bars, and concrete, except for shafts and seals.

1-09.9.OPT2.GR1 (Electronic Transmittal and Signature of the FCVC) (April 30, 2020) Use in all projects.

1-09.9(1).GR1 Retainage

1-09.9(1).INST1.GR1 (Section 1-09.9(1) including title is deleted and replaced with the following) Must use once preceding any of the following:

1-09.9(1).OPT1.GR1 (Vacant) (June 27, 2011) Use in all Federal Aid projects.

1-09.11.GR1 Disputes and Claims

1-09.11.INST1.GR1 (Sections 1-09.11 through 1-09.11(1)B are replaced with the following) Must use once preceding any of the following:
1-09.11.OPT1.GR1 (September 3, 2019)
Use in all projects.
Enables the Disputes Review Board to be selected mutually by the Contracting Agency and Contractor, and allows alternate DRB candidates.
Consult with your ASCE to determine whether to include the Bid item, “Disputes Review Board”. Disputes may be referred to the Disputes Review Board by either party when the Proposal contains the Bid Item “Disputes Review Board”. Requires mutual agreement to refer disputes to the DRB when the Proposal does not contain the Bid Item “Disputes Review Board”.

1-10.GR1 Temporary Traffic Control

1-10.1.GR1 General

1-10.1.INST1.GR1 (Section 1-10.1 is supplemented with the following)
Must use once preceding any of the following:

1-10.1.OPT1.FR1 (Agency-Provided Traffic Control Resources)
(April 1, 2013)
Use on projects where the Region will be providing some labor, equipment or material resource to the Contractor. Typically will include signs, posts, pilot car drivers, etc. The decision to provide resources and the use of this provision requires the approval of the Region Construction Manager.

The first fill-in is a detailed list of the resources to be provided. Include a description of the item, the quantity (if appropriate), its location and any special instructions to the Contractor for acquiring the item. Include a reference to the description of work provision where the resource is to be applied. The second fill-in is the number of working days you want the Contractor to notify the Engineer before each duration of use of the resources.

(2 fill-ins)

1-10.1.OPT2.FR1 (Agency-Arranged Law Enforcement)
Use on projects where the use of WSP personnel is included in the Contract. The decision to use this provision requires the approval of the ARA for Construction or designee.

(2 fill-ins)

Fill-in #1 is a list of the specific duties the WSP personnel may perform during active work zones. Refer to the WSDOT Traffic Manual (M 51-02), Appendix 5.A, Exhibit 1, for a list of specific recommended assignments. WSP should not be shown on the traffic control plans and the duties should be independent from the traffic control installation, operation and removal.
Fill-in #2 is the number of hours that the Contracting Agency will pay the full cost of these WSP duties. This number may be zero if allowing the contractor to request the WSP duties at a 50/50 cost-sharing option during the project is determined acceptable.

10.1.1(1).GR1 Materials

10.1.1(INST1.GR1 (Section 1-10.1(1) is supplemented with the following)
Must use once preceding any of the following:

10.1.1(OPT1.GR1 (Automated Flagger Assistance Devices)
(April 7, 2014)
Use in projects utilizing the Automated Flagger Assistance Devices. Use of this provision requires the approval of the Region Construction Manager or designee.
Must use with 1-10.3(3).OPT1.GR1, 1-10.4(2).OPT2.GR1, and 1-10.5(2).OPT1.GR1.

10.2.GR1 Traffic Control Management

10.2.1(GR1 General

10.2.1(INST1.GR1 (Section 1-10.2(1) is supplemented with the following)
Must use once preceding any of the following:

10.2.1(OPT1.GR1 (Acceptable TCS Training)
(January 3, 2017)
Include in all projects that include the bid item Traffic Control Supervisor, or include the bid item Project Temporary Traffic Control.

10.2.1(OPT2.GR1 (Traffic Control Supervisor)
(January 5, 2015)
May be used on projects with temporary traffic control where a greater experience level is desired for the primary Traffic Control Supervisor. Typical projects where use of the GSP would be considered may have complex traffic control plans, increased risk of worker safety, or impacts to the public.

10.2.3(GR1 Conformance to Established Standards

10.2.3(INST1.GR1 (Section 1-10.2(3) is revised to read)
Must use once preceding any of the following:

10.2.3(OPT1.GR1 (MASH Compliancy Requirements)
(February 3, 2020)
Include in all projects.

10.3(GR1 Traffic Control Labor, Procedures and Devices

10.3(INST1.GR1 (Section 1-10.3 is supplemented with the following)
Must use once preceding any of the following:
1-10.3.OPT1.FR1 (Contractor-Provided Uniformed Police Officers) (May 20, 2020)
Use on projects where the traffic control plans show Uniformed Police Officers performing traffic control-related duties.

(1 fill-in)
The fill-in should provide contact information for local law enforcement agencies that may be able to provide this service. The WSP district contact for the project location may also be provided.

Use with 1-10.4(2).OPT6.GR1 and 1-10.5(2).OPT5.GR1. For use on WSDOT projects only.

1-10.3(3).GR1 Traffic Control Devices

1-10.3(3).INST1.GR1 (Section 1-10.3(3) is supplemented with the following) Must use once preceding any of the following:

1-10.3(3).OPT1.GR1 (Automated Flagger Assistance Devices) (April 7, 2014) Use in projects to include the Automated Flagger Assistance Devices (AFAD). Use of this provision requires the approval of the Region Construction Manager or designee.
Must use with 1-10.1(1).OPT1.GR1, 1-10.4(2).OPT2.GR1, and 1-10.5(2).OPT1.GR1.

1-10.3(3).OPT2.GR1 (Radar Speed Display Signs) (January 2, 2018) Consider use on freeway projects when traffic will be reduced to a single lane with temporary traffic control and workers will be present in close proximity behind channelization devices. Consider a regulatory speed limit reduction when the single lane of traffic will be shifted onto the shoulder away from the work area. The Region Traffic Engineer will need to approve the speed limit reduction.
Must use with 1-10.3(3)(9-35).OPT1.GR1, 1-10.4(2).OPT3.GR1, 1-10.4(2).OPT4.GR1, and 1-10.5(2).OPT2.GR1.

1-10.3(3).OPT3.FR1 (Smart Work Zone System) (May 20, 2020) Consider including a smart work zone system (SWZS) for projects where daily or long term temporary traffic control restrictions will cause regular or ongoing traffic congestion and delays. Queue detection warning may be all that is required but including dynamic lane merge to help reduce the queuing and work zone travel delay information may be included for larger traffic impacts. Consult your region traffic engineer for assistance.
If Project Temporary Traffic Control is lump sum, use with 1-10.4(3).OPT2.GR1 and 1-10.5(2).OPT3.GR1.

If Project Temporary Traffic Control is not lump sum, use with 1-10.4(2).OPT5.GR1 and 1-10.5(2).OPT4.GR1.

1-10.3(3)(9-35.8).GR1 (Section 9-35.8 is revised to read)
Must use once preceding any of the following:

1-10.3(3)(9-35.8).OPT1.GR1 (Radar Speed Display Signs) (April 1, 2019)
Use on projects that will be utilizing Radar Speed Display Signs. The Region Traffic Engineer will need to approve the speed limit reduction.
Must use with 1-10.3(3).OPT2.GR1, 1-10.4(2).OPT3.GR1, 1-10.4(2).OPT4.GR1, and 1-10.5(2).OPT2.GR1.

1-10.4.GR1 Measurement
One of these three GSPs must be included in every project with traffic control: 1-10.4(1).OPT1.GR1, 1-10.4(2).OPT1.GR1, 1-10.4(3).OPT1.FR1.

1-10.4(1).GR1 Lump Sum Bid for Project (No Unit Items)

1-10.4(1).INST1.GR1 (Section 1-10.4(1) is supplemented with the following)
Must use once preceding any of the following:

1-10.4(1).OPT1.GR1 (Total Project Lump Sum Payment) (August 2, 2004)
Use on projects where there will be only one item for all temporary traffic control in the bid proposal. Lump sum traffic control requires the establishment of a lump sum item and the deletion of all other standard temporary traffic control items.

This method of payment may be used any project with the approval of the Region Construction Manager or designee. It is not recommended for projects with traffic control costs that are difficult to determine as the bidder must have a reasonable opportunity to predict the necessary temporary traffic control measures and prepare a responsible estimate.

Do not use with 1-10.4(2).OPT1.GR1 or 1-10.4(3).OPT1.FR1.

1-10.4(2).GR1 Item Bids With Lump Sum for Incidentals

1-10.4(2).INST1.GR1 (Section 1-10.4(2) is supplemented with the following)
Must use once preceding any of the following:

1-10.4(2).OPT1.GR1 (Standard Items)
(August 2, 2004)
Use on projects that will be utilizing the traffic control
Bid items referenced in the provisions. While there may
be lump sum Bid items within that list, this is not a total-
project lump sum bid.

Do not use with 1-10.4(1).OPT1.GR1 or
1-10.4(3).OPT1.FR1.

1-10.4(2).OPT2.GR1 (Automated Flagger Assistance Devices)
(April 7, 2014)
Use on projects that will be utilizing Automated Flagger
Assistance Devices. Use of this provision requires the
approval of the Region Construction Manager or
designee.
Must use with 1-10.1(1).OPT1.GR1, 1-
10.3(3).OPT1.GR1, and 1-10.5(2).OPT1.GR1.

1-10.4(2).OPT3.GR1 (Radar Speed Display Signs)
(January 2, 2018)
Use on projects that will be utilizing Radar Speed
Display Signs. The Region Traffic Engineer will need to
approve the speed limit reduction.
Must use with 1-10.3(3).OPT2.GR1, 1-10.3(3)(9-
35).OPT1.GR1, 1-10.4(2).OPT4.GR1, and 1-
10.5(2).OPT2.GR1.

1-10.4(2).OPT5.GR1 (Smart Work Zone System)
(May 20, 2020)
Use on projects when a Smart Work Zone System will
be utilized and Project Temporary Traffic Control is not
lump sum.

Use with 1-10.3(3).OPT3.FR1 and 1-
10.5(2).OPT4.GR1.
Do not use with 1-10.4(2).OPT1.GR1, 1-
10.4(3).OPT1.FR1, or 1-10.4(3).OPT2.GR1.

1-10.4(2).OPT6.GR1 (Contractor Provided Uniformed Police Officer)
(May 20, 2020)
Use on projects where the traffic control plans show
Uniformed Police Officers performing traffic control-
related duties

Use with 1-10.3.OPT1.GR1 and 1-10.5(2).OPT5.GR1.

1-10.4(2).INST2.GR1 (The sixth bullet of the third paragraph in Section 1-10.4(2)
is revised to read)
Must use once preceding any of the following:

1-10.4(2).OPT4.GR1 (Radar Speed Display Sign)
(January 2, 2018)
Use on projects that will be utilizing Radar Speed Display Signs. The Region Traffic Engineer will need to approve the speed limit reduction.

Must use with 1-10.3(3).OPT2.GR1, 1-10.3(3)(9-35).OPT1.GR1, 1-10.4(2).OPT3.GR1, and 1-10.5(2).OPT2.GR1.

1-10.4(3).GR1

Reinstating Unit Items With Lump Sum Traffic Control

1-10.4(3).INST1.GR1  (Section 1-10.4(3) is supplemented with the following)
Must use once preceding any of the following:

1-10.4(3).OPT1.FR1  (Project Lump Sum)
(August 2, 2004)
Use on projects that will be total project lump sum except that some other traffic control Bid items will be utilized on the project. Use of this provision requires the approval of the Region Construction Manager or designee.

This method of payment might be applied to a job that would be total project lump sum except that some part of the work is not readily predictable. The need for Flaggers might be unclear or there could be an indeterminate future need for public information utilizing Portable Changeable Message Signs.

The fill-in for this provision is a list of the traffic control Bid items that are included according to Sections 1-10.4(3) and 1-10.5(3). Do not use with 1-10.4(1).OPT1.GR1 or 1-10.4(2).OPT1.GR1.
(1 fill-in)

1-10.4(3).OPT2.GR1  (Project Temporary Traffic Control Lump Sum – Smart Work Zone System)
(May 20, 2020)
Use on projects that will be total project lump sum except for Smart Work Zone System Bid items will be utilized on the project. Use of this provision requires the approval of the Region Construction Manager or designee.

Use with 1-10.3(3).OPT3.GR1 and 1-10.5(2).OPT3.GR1.
Do not use with 1-10.4(1).OPT1.GR1, 1-10.4(2).OPT1.GR1, or 1-10.4(3).OPT1.FR1.

1-10.5.GR1

Payment

1-10.5(2).GR1  

Item Bids with Lump Sum for Incidentals

1-10.5(2).INST1.GR1  (Section 1-10.5(2) is supplemented with the following)
Must use once preceding any of the following:

1-10.5(2).OPT1.GR1  (Automated Flagger Assistance Devices)
Use in projects utilizing Automated Flagger Assistance Devices. Use of this provision requires the approval of the Region Construction Manager or designee. Must use with 1-10.1(1).OPT1.GR1, 1-10.3(3).OPT1.GR1, and 1-10.4(2).OPT2.GR1.

1-10.5(2).OPT2.GR1 (Radar Speed Display Signs) (January 2, 2018)
Use in projects utilizing Radar Speed Display Signs. The Region Traffic Engineer will need to approve the speed limit reduction. Must use with 1-10.3(3).OPT2.GR1, 1-10.3(3)(9-35).OPT1.GR1, 1-10.4(2).OPT3.GR1, and 1-10.4(2).OPT4.GR1.

1-10.5(2).OPT3.GR1 (Smart Work Zone System) (May 20, 2020)
Use in projects when a Smart Work Zone System will be utilized and Project Temporary Traffic Control is lump sum. Use with 1-10.3(OPT3).GR1 and 1-10.4(3).OPT2.GR1.

1-10.5(2).OPT4.GR1 (Smart Work Zone System) (May 20, 2020)
Use on projects when a Smart Work Zone System will be utilized and Project Temporary Traffic Control is not lump sum. Use with 1-10.3(OPT3).FR1 and 1-10.4(2).OPT5.GR1.

1-10.5(2).OPT5.GR1 (Contractor Provided Uniformed Police Officer) (May 20, 2020)
Use on projects where the traffic control plans show Uniformed Police Officers performing traffic control-related duties. Use with 1-10.3.OPT1.GR1 and 1-10.4(2).OPT6.GR1.
