PART 1 - PROJECT DESCRIPTION

Statement of Deficiencies/Needs: This project is included in the Eastern Region 20-year financially constrained mobility strategy. The region does not have a high capacity north-south transportation corridor for the efficient movement of freights, goods and people to meet the future transportation demands. The current traffic congestion on both state routes and local routes moving in a north south direction have contributed to non-attainment for carbon monoxide levels within the urban growth boundaries.

Statement of Purpose: This project constructs three southbound lanes and five bridges between Freya Street and Farwell Road. When complete this

DESCRIPTION OF WORK

WIN Description

600012A US 395/NSC - Freya St to Farwell Rd - SB Additional Lanes

Version: US 395/NSC - Freya to Fairview SB Additional Lanes

Type of Work: Additional Lanes	NHS Status: NHS	Roadway: Multi-lane	New/ Reconstruction? Yes	Functional Class: Principal Arterial
