

Puget Sound Gateway SR 167 Completion Environmental Process

Tier II Final Environmental Impact Statement completed in 2006

National Environmental Policy Act (NEPA) Record of Decision completed in 2007

WSDOT and Federal Highway Administration will review and update environmental documentation, including all disciplines. For example:

- Social/environmental justice
- Noise and air quality
- Wetlands
- Land use
- Economics, public resources
- Historical/cultural resources
- Transportation/Tolling
- Water resources

Environmental stewardship is one of six strategic goals for WSDOT, along with strategic investments, modal integration, organizational strength, community engagement and smart technology.
