Certification

## Evaluation criteria

WSDOT has criteria for evaluating applications in collaboration with partners and stakeholders. WSDOT evaluates all applications based on the extent to which:

1. The project establishes, preserves, or improves public transportation services within a community.
2. The project addresses a recognized need within the community.
3. The project reflects a community process of coordination and input.
4. The project leverages funds from other sources and/or documents local commitment to support the implementation of the project.
5. The project appears to be feasible as described.
6. The project connects to other systems and/or modes.
7. The project defines specific performance measures it will use to determine its success.
8. The project describes an active effort aimed at improving the efficiency and effectiveness of transportation services.
9. The applicant reports sufficient experience managing transportation projects and grants awards to ensure success.
10. The applicant reports sufficient financial capability and resources to implement and successfully carry out the project.
11. The applicant demonstrates a good-faith effort to utilize and/or contract with disadvantaged businesses on the project.
12. The project contributes to the state's effort to maintain the number of public transportation vehicles within their minimum useful life.
13. For vehicle purchases, the project complies with state rules (Chapter 194-29 WAC) regarding alternative fuels.
