I-5 System Partnership Strategic Framework

Goals

**Safety and reliability** - Predictably, safely and efficiently serve the transportation needs of our region

**Equitable opportunity** - Advance access to support economic opportunity, health and quality of life for our region and all of its people

**Connected communities** - Improve connections between communities with more multimodal travel options

**Adaptive innovation and technology** - Innovate with mobility solutions, land use decisions, and emerging technologies that serve the evolving needs of our communities and economy

**Maintain the system** - Lowest lifecycle cost to preserve the system in a state of good repair

**Resiliency** - Create resilience in anticipation of disruptive conditions

**Environmental stewardship** - Maintain the highest standards for environmental management

**Sustainably funded** - Ensure revenues and resources are available that set the I-5 system on a new course toward sustainable funding, less burdened by debt

Strategies

- Optimize the existing system and invest strategically
- Embrace new and emerging technologies
- Coordinate land use and transportation
- Increase travel choices
- Keep freight and goods moving
- Maintain and preserve our assets

Possible approaches

- Commute trip reduction
- Direct access ramps
- Tolls
- Managed lanes
- HOV enforcement
- Speed management
- 24-hour system management
- Adaptive signal control
- Ramp metering
- Peak shoulder running
- Jobs-housing balance
- Autonomous vehicles
- Affordability
- Community engagement
- Integrated transit fare
- New revenue sources
- Cross-jurisdictional planning
- Coordinated traffic and incident response
- EV infrastructure
- Design facilities for all users
- Bridge rehabilitation
- Paving preservation
- Seismic retrofits
- Public-private partnerships
- Travel-related data collection and sharing
- Transit-oriented development
- Truck parking and management
- Bike and pedestrian facilities
- Integrated transit fare
- Optimize the transit system
- Provide more transit
- Practical solutions
- Equitable pricing
- Maintain & improve freight corridors
- Truck parking and management
- Cross-jurisdictional planning
- Travel-related data collection and sharing
- Transit-oriented development
