Toll Financial Statements were prepared in accordance with Generally Accepted Accounting Principles for governmental fund types.

The notes to the financial statements are an integral part of this statement.

Prepared September 20, 2012  
by the Division of Accounting and Financial Services
COMBINING BALANCE SHEET
State Fiscal Year 2012, Quarter Ending June 30, 2012

Notes:

TNB Motor Vehicle Account Obligation – The TNB Account is obligated to repay $5,288 million loaned from the Motor Vehicle Account during the 05/07 biennium. As directed by legislation, all net TNV Civil Penalty Revenue received under the future Notice of Civil Penalty Adjudication process must be transferred to the Motor Vehicle Account each biennium as repayment of the outstanding obligation until the full amount of the original loan ($5,288 million) has been repaid.

HOT Lanes Operating Expenditures in Other Accounts - Currently the High Occupancy Toll (HOT) Lanes Account pays most costs associated with operations and maintenance of the HOT Lanes on SR 167. However, the monthly cost associated with Toll Lane vendor warranty as well as some WSDOT staffing has been funded outside of the HOT Lanes Account. Based upon the 2013 biennium budgeted amounts, the additional project costs that are currently estimated to be funded outside of the HOT Lanes Account are approximately $43,500 per quarter ($174,000 per fiscal year).

520 Bridge Motor Vehicle Account Obligation - During the current biennium, the 520 Bridge Account is required to transfer out $57,913 for expenditures incurred by the Motor Vehicle Account on behalf of the 520 Bridge Account.

Detailed Notes:

1. Accounts Receivable consists of:
   (a) TNB and 520 Bridge Accounts consist primarily of: (1) Crossings where a Toll Bill has been sent to the customer via Pay-by-Mail, (2) Customer payments made by credit card which had yet to settle by June 30, (3) and the Accounts allocated share of NSF fee, transponder sales, and toll bill reprocessing fee receivables. The TNB Account also includes accounts receivable related to notice of civil penalties.
   (b) HOT Lanes Account consists of amounts due from customers because their prepaid account had an insufficient balance and HOT Lanes allocated share of NSF fee and transponder sales receivables.
   (c) 520 Civil Penalty Account consist of all outstanding amounts due related to 520 Bridge notice of civil penalties.
   (d) Central Toll Account consists primarily of customer payments made by credit card which had yet to settle by the close of the reporting period.

2. For TNB, HOT Lanes and the 520 Bridge and Civil Penalty Accounts, the Due from Toll Vendor consists primarily of amounts due from the CSC operations vendor (ETCC) due to renegotiation of the CSC operations contract. For the Central Toll Account amount are due from the CSC operations vendor ETCC due to operational and system errors that have required manual corrections and have resulted in amounts due to WSDOT.

3. Consumable inventory consists of toll transponders. Consumable inventory is valued at cost using the first in, first out (FIFO) method.

4. Deferred Revenue is comprised of:
   (a) TNB Account - amounts associated with TNBs long-term portion of the toll vendor receivable as well as notice of civil penalty amounts not yet recognized because the adjudication process has not been completed.
   (b) HOT Lanes and the 520 Bridge Account - amounts associated with the accounts long-term portion of the toll vendor receivable.
   (c) 520 Civil Penalty Account - notice of civil penalty amounts not yet recognized because the adjudication process has not been completed.
   (d) Central Toll Account – amounts from customers on deposit for prepaid GoodToGo! accounts. No revenue is ever recognized in the Central Toll Account. Funds from the prepaid accounts, held in the Central Toll Account, is transferred to the applicable toll facility when a transponder is “read” as the customers' vehicle crosses one of the toll facilities. Until this event, the prepaid toll account balance represents a liability to the state and is owed to the customer.

5. After twenty-four months of inactivity, prepaid toll accounts are closed and remaining balances, less any associated fees, are refunded to the customer. In cases where the Good to Go vendor cannot locate the customer, WSDOT remits the prepaid toll account balance to the Department of Revenue’s Unclaimed Property Section. The balance in Unclaimed Property Refund Liability represents amounts that will be remitted to the Department of Revenue.

6. Occasionally, the Department is unable to remit payment for goods or services to a vendor because the vendor cannot be located, such as when the vendor changes addresses without notifying the Department. Since we still owe the vendor for the goods or services provided, we must cancel the original warrant (check), find the vendor, and reissue the warrant (check). This line item represents the liability to the vendors whom the Department owes money but temporarily cannot locate to deliver their funds.

7. The Unspent Bond Proceeds and Operations and Maintenance Restrictions are reserves which are required by the Master Bond Resolutions. Additionally, fund balance is considered “restricted” if its usage is limited by creditors, other governments, or through constitutional provisions.

8. Fund balance is considered “committed” if usage is limited by the governing authority.
