2. I-5 Congestion Relief Study

• Study Area
• Focus Interchanges
• Study Purpose

To determine the facilities and strategies necessary to relieve chronic traffic congestion and improve mobility along Interstate 5 in the vicinity of Joint Base Lewis-McChord while providing access to the communities and military installations neighboring the freeway.
**Project Timeline**

### Phase 1
- 2013
  - I-5 Corridor Traffic Modeling
  - Ex. Traffic Conditions Analysis
  - Traffic Operational Analysis
  - Develop Alternatives/Screening
  - Environmental Scan
  - Draft Alternatives Analysis Report
  - Review & Comment
  - Final Document
  - Stakeholder Coordination

### Phase 2
- 2014
  - **Corridor Alternatives Analysis**
  - Preliminary Screening
  - Detailed Analysis of Multi-modal Packages
  - Evaluate & Document Alternatives

### Phase 3
- 2015
- 2016
  - **Corridor Level Environmental Assessment**
  - **Corridor Interchange Justification Report**

---

**Timeline**
- **NEPA Approval**
- **Target Completion July 2016**
- **Open House**
