Notice to Consultants

Olympic Region General Engineering Consultant Services

The Washington State Department of Transportation (WSDOT) solicits interest from consultants who wish to be evaluated and considered to provide general engineering services for the WSDOT Olympic Region (OR). The Consultant selected will work with WSDOT OR on various projects throughout the region; work will consist of providing support services in the development of design-bid-build and design-build projects both during project development and construction administration. Work will also include supporting WSDOT project offices during active design-build contracts.

WSDOT Olympic Region intends to utilize consultant resources to assist in the delivery of funded fish passage projects, and if necessary, for preservation and safety improvement projects. The need for these services will vary and may include requests for consultant staff to be co-located with STATE staff in various capacities, potentially including full consultant design teams. WSDOT OR will also have the need for GEC and support staff to augment, or become a temporary team member on, various WSDOT teams. The Consultants providing support services under this Contract may be prohibited from being on future teams for design-build delivery; please reference the WSDOT Organizational Conflict of Interest (OCOI) manual, https://wsdot.wa.gov/Publications/Manuals/M3043.htm.

One (1) agreement may be awarded. The agreement will be approximately $20,500,000 and two (2) years in duration. At WSDOT’s option the agreement may be supplemented for additional time and/or money.

The general scope outline of the overall agreement is below under Project Description. It is noted that the various services authorized shall be scoped and negotiated as individual Task Orders under this Agreement.

WSDOT reserves the right to amend terms of this “Request for Qualifications” (RFQ) to circulate various addenda, or to withdraw the RFQ at any time, regardless of how much time and effort consultants have spent on their responses.

NOTE: The Olympic Region of the WSDOT is holding a voluntary informational meeting for State staff to be available to discuss the agreement and answer questions. The date of this meeting is April 29, 2021 from 3:00PM to 4:30PM. The meeting will be held virtually using Microsoft TEAMS; please contact Molly Webster at webstem@wsdot.wa.gov by close of business 4/23 to both register for the event and to submit questions to be discussed at the event.

Project Description
The General Engineering Consultant will provide the resources needed to assist OR staff in delivering projects at various stages of development and construction. This will include providing an Engineering Resource Manager (ERM), in addition to resources that may be requested in other disciplines as described below.
The major areas of support are divided into Project Development Support and Construction Administration Support. Key team members will be considered for supporting the following major areas:

**Project Development Support**

1. Fish Passage and Stream Design
2. Environmental Documentation and Permitting
3. Stormwater Design and Hydraulics Reports
4. General Transportation Engineering and Contract Development Support

**Construction Administration Support**

5. Design-Bid-Build Construction Administration, Inspection and Testing
6. Design-Build Submittal reviews, Environmental Documentation and Permitting Support, and Quality Verification Inspection and Testing

Other minor areas of support for both Project Development and Construction Administration support will be: utility design and coordination, geotechnical investigation and design, structure design, landscape architecture, right of way plans and appraisals, right of entry support, public information office support, surveying, maintenance of traffic, constructability reviews, scheduling services, procurement documents for design-build projects, contract documents for design-bid-build projects, and other services as needed by the STATE.

Project development staff provided by the Consultant may be co-located in various project offices within the Olympic Region including but not limited to OR Headquarters in Lacey, WA (assignments will depend on WSDOT need), or may work out of the consultant's home offices, as approved by OR management and depending on the particular needs of the projects. The contract administration and associated staffing needs are expected to be in outlying project offices across the region including Port Angeles, Aberdeen, and Port Orchard. The contract administration support may include independently administering small construction projects or providing staff augmentation on larger WSDOT projects. Need for consultant resources may vary; some projects may need significant support, while other projects may need minor consultant support.

**UDBE, SBE, or MSVWBE Participation**

This agreement will be subject to a 26% voluntary goal (10% Minority, 6% WBE, 5% VBE, 5% SBE). The selected consultant will be required to submit a plan for approval prior to commencement of work. For more information and guidelines:
