On-Call Aerial Imagery Services Q&A  

Rev. 0, 2-26-2021, 10:00 AM  

Q - The question we have is the following: 

- Page 1 of the RFQ doc shows 6 criteria at the bottom of the page. Additionally, these 6 criteria are broken up into Packets A and B on page 2 of the RFQ (1-3 in Packet A, 4-6 in Packet B). However, in the Criteria Definitions doc, there are 7 Criteria listed and the 7 listed do not match the 6 shown in the RFQ. Can WSDOT confirm the criteria which should be included with our responses to the On-Call Aerial Imagery Services RFQ and which packet to include each criteria within?

A – The RFQ document is amended to include criterion 4. Packet A should include responses to criteria 1-4 and Packet B should include responses to criteria 5-7.
