State of Washington Department of Transportation  
Notice to Consultants  
On-Call Aerial LIDAR Services

The Washington State Department of Transportation (WSDOT) solicits interest from consultants who wish to be evaluated and considered to provide On-Call Aerial LIDAR Services. Multiple agreements may be awarded. The agreements will be for approximately 4 years in duration with the option for WSDOT to extend it for additional time and money if necessary. The Agreement amount will be approximately $500,000.00 each. These agreements will be Task Order agreements with no minimum amount of work guaranteed.

WSDOT reserves the right to amend terms of this “Request for Qualifications” (RFQ) to circulate various addenda, or to withdraw the RFQ at any time, regardless of how much time and effort consultants have spent on their responses.

Project Description
The scope of this agreement covers the use of contractor owned equipment and staff to plan and perform aerial LiDAR. Such work will be accomplished using airborne LiDAR sensors that have been calibrated using USGS approved “in-situ” methodology. LiDAR sensors used must have internal geometry and ranging accuracy that supports precise 3D data extraction suitable for transportation planning purposes and high resolution ortho-photo production. LiDAR data collection will be performed using computer guided, GPS based flight navigation systems. Precise Airborne GPS/IMU data will be collected for each mission. Data will not be acquired if the P-DOP of GPS signal is greater than 4.5, preferably less than 3.0. AGPS/IMU data will be post processed and full classification performed by the vendor. Fully classified data will be delivered in LAS format. Delivery of LAS data to WSDOT will be on vendor supplied portable hard drives, bare SATA hard drives or USB flash media as appropriate to each project. WSDOT will retain possession of the delivery media.

Details about each task such as; location, date, tide, point density, swath overlap, swath angle and ground control marking and survey are to be specified on a task-by-task basis as needed. Firms selected will receive an On-Call task order agreement.

Consistent with WSDOT Policy, a “second tier” competitive process may be employed prior to execution of a task order. Individual tasks will be negotiated as stand-alone assignments terminating when the task budget is exhausted or the task time frame has expired.

UDBE, SBE, or MSWBE Participation
WSDOT reserves the right to set DBE, M/WBE, SBE and Veteran owned business participation goals on all Task Orders.

WSDOT encourages disadvantaged, small, minority, veteran and women-owned consultant firms to respond to this RFQ.
