Good To Go!
1. Civil Penalty Process for Toll Violations

Summary:
This report is for the period Jan. 1, 2021 through March 31, 2021 and addresses requirements in Section 209 (4) of ESHB 1160 regarding WSDOT’s Notice of Civil Penalty (NOCP) process for unpaid tolls.

During the Q3 FY2021 period:
- WSDOT assessed 407,419 civil penalties for unpaid toll trips.
- During the same period, WSDOT recovered approximately $1.0 million in unpaid tolls and $2.5 million in penalties and fees (these totals include cash received from uncollected civil penalty revenue from previous time periods).
- 38,515 civil penalty transactions, or 9.4 percent of those issued, were paid without dispute.
- 64 hearing requests (tele-hearings and written) were submitted, representing 1,516 civil penalty transactions, or less than 1 percent of all civil penalties issued.
- Civil penalty revenue from FY2021 Q3 was reported at $2.66 million dollars, a slight increase from FY 2021 Q2 revenue of $2.39 million.

Figure 1 shows the current NOCP process diagram and how the Customer Program for Resolution (CPR) is integrated with the original process. The graphic shows multiple points where the customer is given the opportunity to pay or resolve toll issues along the way.

Table 1 shows the NOCP data for this quarterly report and the accumulated year-to-date for FY 2021 (Q1 through Q4). Each line item is numbered and corresponds to the entries of the item details list.

Table 1 shows the NOCP data for this quarterly report and the accumulated year-to-date for FY 2021 (Q1 through Q4). Each line item is numbered and corresponds to the entries of the item details list.

#### Administrative Incentive Requirements

- **4.2 Number of civil penalty transactions processed except the NOCP**: 7,354, 10,231, 9,739
- **5.2 Number of written administrative hearings requested**: 0, 0, 1
- **5.3 Number of civil penalty transactions related to written hearings**: 0, 0, 0
- **5.4 Number of administrative law hearings related to written hearings**: 54, 106, 501
- **5.6 Number of civil penalty transactions related to administrative law hearings**: 70,960, 50,942, 56,134
- **8.1 Total number of written administrative hearings requested**: 56, 157, 502
- **8.2 Total number of civil penalty transactions related to requested administrative hearings**: 15,399, 29,391, 15,910
- **8.3 Number of written administrative hearings related to customer complaints**
  - **5.2 Number of civil penalty transactions related to written hearings**: 17,917, 15,619, 15,556
  - **5.3 Number of civil penalty transactions related to written hearings**
  - **5.4 Number of administrative law hearings related to written hearings**: 62,842, 60,015, 67,317
- **8.3 Total value of civil penalty & fees waived**: $3,814,893, $4,946,821, $2,846,753
- **9.1 Customer Service Reform Results (CPR and Mitigation)**
  - **Civil penalty revenue recognized (financial statement)**: $510,706
  - **Cash collected related to civil penalty tolls**: $337,253
  - **Cash collected related to civil penalty & fees**: $429,150
- **10.1 Total cash received related to debt collection activities**: $1,006,612
  - **Interest earned from debt collection activities**: $6,995,956
  - **Net cash received related to debt collection activities (Quarter)**: $442,763

#### NOCP Revenue

| FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 | FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 | FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 | FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 | FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 | FY 2021 Q1 | FY 2021 Q2 | FY 2021 Q3 | FY 2021 Q4 |
|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| **Revenue, Cash Collected and Debt Collection Costs** |

#### Note

The negative balances reflected in line 15 for "Civil penalty revenue recognized" are due to allowance for doubtful accounts (A/A). We estimate the A/A based upon the balance sheet amount of NOCP accounts receivable. So when billing amounts are low the adjustment can push revenue to a negative amount.
NOCP Quarterly Data Item Details (for Table 1)

1) The count of unpaid toll transactions assessed a civil penalty during the reporting period.
2) Number of customer accounts that were assessed a civil penalty after being notified of a pending civil penalty assessment within the next 10 days.
3) Count of civil penalty transactions related to customer accounts in Item 2 above.
4) Count of civil penalty transactions where the customer paid within the period to request an administrative hearing (20 days from mailing date of NOCP summary).
5) Number of administrative hearings requested in writing instead of appearing in person.
6) Count of civil penalty transactions associated with written hearing requests.
7) Number of administrative hearings requested in person as opposed to a hearing through written correspondence.
8) Count of civil penalty transactions associated with in-person hearing requests.
9) Count of civil penalty transactions with no response during period to request an administrative hearing (20 days from mailing of NOCP summary).
10) Number of administrative hearings (both in person and in writing) during the reporting period.
11) Count of civil penalty transactions associated with administrative hearing requests during the reporting period.
12) Count of customer contacts related to the customer relief programs. This includes both the Customer Program for Resolution (CPR) and the civil penalty mitigation program (components of SSB 5481 – Customer Service Reform)
13) Count of civil penalty transaction for which the civil penalty and other associated fees were waived.
14) The dollar value of the civil penalties and fees which were waived (Item 13).
15) The civil penalty revenue that is reported on the AFS Quarterly Financial Statements.
16) The dollar value of the tolls portion of the civil penalty transactions which were collected during the reporting period. The amount may include cash recognized as revenue in previous quarters.
17) The dollar value of the civil penalties and fees portion of the civil penalty transactions which were collected during the reporting period. The amount may include cash recognized as revenue in previous quarters.
18) Sum of tolls, civil penalties and fees collected related to civil penalty transactions which were collected during the reporting period (sum of note 17 and note 18). The amount may include cash recognized as revenue in previous quarters.
19) Expenditures related to debt collection activities for the reporting period. Expenditures include WSDOT staff, consultant support, credit card fees, NOCP summary postage and mailing costs, and administrative hearing costs such as OAH (hearing officers) and courtroom security (security officers).
20) Net cash is the difference between the total amount of tolls, civil penalties and fees (note 18) and civil penalty expenditures (note 19)
2. Customer Service Center Procurement

This report is for the period Jan. 1, 2021 through March 31, 2021 and addresses requirements in Section 209(6) of ESHB 1160 regarding the completion of the procurement and implementation process for the new toll back office system (BOS) and customer service vendors. This report addresses the overall progress toward procuring a new tolling customer service center, the new BOS implementation and the department’s effort to mitigate risk to the State.

Overall Progress

Continuing the work to date, the Toll Division performed the following work in FY 2021 Q3:

Overall, the BOS vendor ETAN continues to make progress to implement the new back-office system. The final phase of formal system testing, the operations test, was completed in March 2021. Continued remediation of defects and stabilization was necessary in order to complete the go-live readiness milestone, which was subsequently approved in May 2021. Validation and punch list testing, and review of risks and mitigation will continue between go-live readiness and go-live planned for late June. If the remaining validation and testing does not meet contract requirements and/or risks cannot be satisfactorily mitigated, the go-live schedule will be adjusted. WSDOT is putting in place mitigation strategies to continue current operations, if needed, through July.

BOS Implementation Project Activity:

During FY 2021 Q3, WSDOT continued work as follows:

- Continued milestone 3 final design progress
  - Development efforts continue to focus on defect resolution.
  - Completing the System Detail Design Deliverables (SDDD) has been delayed as it is tied to the operations test in order to maintain alignment with the SDDD and final functionality. As the operations test is now complete, the SDDD will be finalized in early FY 2021 Q4. The SDDD is in its final comment reconciliation and incorporation prior to approval. This deliverable is the final approval for milestone 3 of the contract.
- Continued progress on remaining concurrent milestones
  - Milestone 5 – Testing/Migration
    - WSDOT led operations test is complete and the report will be approved in Q4.
    - Data migration mapping, analysis and validation continues. Planned incremental data migration update complete. Next update will be in May.
    - Third party pre go-live PCI-DSS and SOC readiness audits complete, full records of compliance will be completed post–go-live.
    - Began defect remediation and transition governance check points.
  - Milestone 6 – Training
    - ETAN continues to update the training environment and data in parallel with production system.
    - Operations staff training has begun and is supported by ETAN.
Other BOS Activity

- Continued internal and external BOS project lead and status meetings, continuing weekly meetings with vendor and WSDOT executive teams.
- Continued monthly risk assessment and program budget meetings.
- Continued stakeholder engagement with OFM, Legislative Staff, Office of Chief Information Officer (OCIO), Joint Transportation Committee (JTC), Washington State Transportation Commission (WSTC), Department of Licensing (DOL), WSDOT ITD, Toll Steering Committee and Toll Executive Committees.
- Continued coordination with OFM and OCIO, through bi-weekly project meetings. OCIO representatives also participate in monthly Toll Steering Committee meetings that include Independent Verification & Validation (IV&V) and Quality Assurance (QA) oversight. Additional meetings are also held prior to the steering meeting with WSDOT, QA and IVV separately each month to review and respond to current risks to the project.
- Presentations to the Technology Services Board (TSB) on the status of the project and WSDOT’s ongoing management strategies with ETAN leadership and QA/IVV oversight. WSDOT updated the TSB in February 2021 and another update is scheduled for FY 2021 Q4.
- The gate 3 certification request was acknowledged by OCIO. Upon completion of the gate 3 deliverables, gate 4 application will be submitted. Gate 4 application is planned for May which will carry through go-live.
- Transition planning continues with coordination between the BOS vendor, CSC operations vendor, legacy vendor and WSDOT. Weekly meetings tracking to the transition checklist is in progress.

Operations Activity:

- WSDOT directed Shimmick to start ramp-up and Shimmick has engaged with their staffing agencies to start recruiting for call center staff in preparation for a June go-live.
- Shimmick staff and WSDOT staff are performing operations testing.
- Amendment 5 for the Shimmick contract was executed, which covers implementation delay rates through May 2021. We are updating the go-live date with amendment 6.
- WSDOT approved the vendor’s request for an increase in billable rates per the 2020 and 2021 CPI index. The updates will be included in amendment 6.
- Shimmick staff completed train the trainer refresh in preparation for staff training that will start in April.
- WSDOT continues to work with ETAN to close open technology infrastructure items. The primary focus is demonstrating that the workstations can accommodate all applications needed during operations and set up the phone system/Twilio.
- Necessary social distancing measures due to the pandemic remaining in place. The walk-in center in Renton will remain closed and the space will be used to build out extra work stations for back office activities. All walk-in centers were closed in March 2020, but WSDOT has not experienced serious issues or escalations despite the lack of in-person service. Shimmick will also build out other areas in the call center, such as conference rooms for extra call center work space.
- BOS stakeholder engagement with OFM, Legislative Staff, Department of Licensing (DOL), WSDOT ITD, Toll Steering Committee and Toll Executive Committees continued.
First draft of operations budget submitted by Shimmick.

Implementation Plan and Process
WSDOT is maintaining ETAN’s project schedule and is seeing better forecasting of potential issues further in advance. The Phase 1 schedule has stabilized toward a June 2021 go-live and will maintain alignment with operations staff ramp-up for go-live.

The project team continues to meet internally daily to plan and execute the remaining work in upcoming milestones while providing review of critical path, defect validation and data migration related activities. WSDOT, ETAN, and Shimmick continue to identify and balance training needs and upcoming transition elements affecting all staff and vendors. The implementation contract is divided into two phases:

- **Phase 1** includes replacement of existing core functionality as well as new customer account and payment options and a more modern and user-friendly website.
- **Phase 2** includes agency interoperability, data warehouse, collections functionality and increased trip building capability, which are functions delivered outside of the current core functionality.

Mitigation Measures
The Toll Division has taken steps to mitigate risk to the department and the State. The contract with ETCC, our existing legacy BOS and CSC vendor, was extended through July 2021 which will continue to provide stability and flexibility as the department works with ETAN to implement the BOS and CSC operations.

WSDOT continues to closely monitor ETAN from both BOS and CSC operations readiness perspectives. Other mitigation steps have also included project schedule adjustments, overall transition of schedule maintenance to WSDOT to continue to more directly manage critical path sequences, and contract enforcement. WSDOT will also continue to coordinate and consider recommendations from OCIO, as well as continue presenting to the Technical Services Board as required.

Next Steps
In FY 2021 Q4, WSDOT will continue to perform work in three primary areas: (1) CSC Operations Project Implementation: (2) Migration and transition support from our legacy vendor, and (3) BOS Project Implementation to Go-Live, as described below.

1. **CSC Operations Project Implementation:**
   With the Renton call center and walk-in center (WIC) buildout complete, activities will focus on the following:
   - Update project plan and schedule based on new system go-live date.
   - Recruit, hire and train call center staff.
   - Complete build out of extra space in call center
   - Continue closeout of open items to achieve operations readiness.
   - Update operations management plan deliverable as needed.
   - Finalize system SOPs.
   - Finalize first-year operations budget.
   - Continue refinement of KPI monitoring and reporting methods.
   - Continue coordination between CSC operations vendor and legacy vendor as needed to address staffing needs or current operations activities.
• Continue to support BOS testing.
• Transition customer center operations from ETC to Shimmick

2. **Support from Legacy Vendor:** Continue working with ETCC as they provide support for the operations transition and data migration activities through go-live.

3. **BOS Project Implementation:**
   - Continue to complete portions of concurrent milestones. Milestone 3: Final Design, Milestone 5: Installation & Testing, and supporting staff training preparation. The remaining Phase 1 milestones will continue until go-live.
   - Review and approval of key BOS documentation.
     - Continue to measure resources supporting ETAN.
     - Complete resolution of all high and critical priority defects emerging through remediation.
     - Complete security and performance analysis against the overall system and website.
     - Continue go-live readiness assessments with WSDOT and ETAN to ensure key pre-requisites and identify areas system of out of alignment/expectation between the two parties.
     - Continue active mitigation and decision progression through vendor development and identifying workarounds if necessary
     - Continue data migration planning analysis and mapping from additional data extractions and migrations.
3. Consultant Reporting

Legislative Request
As required by Section 209 (4) of ESHB 1160, the following is the report to the Governor and the Transportation Committees of the Legislature on the use of consultants in the toll operations budgets for FY 2020 and FY 2021. The report includes the name of all consultants, the scope of work, the type of contract, timeliness, and deliverables and any new task orders and extensions added to the consulting contracts during the quarter reported.

Terms Defined
For the purpose of this report the requested items were interpreted to mean the following:

Consultant: a contractor providing personal services to the Toll Division of WSDOT.
Scope of work: a general description of the contracted services.
Type of contract: contract categorization according to the Washington State Department of Enterprise Services (DES).
Timeliness: the status of task activity during the biennium.
Deliverables: a list of work products delivered during the biennium.

Summary Report, Expenditures
The Toll Division’s 2019-21 Biennium Program B Budget is $118,402,000. The following is a summary of the Toll Division’s consultant contracts and associated Program B expenditures through the third quarter of FY 2021 (seventh quarter of the biennium):

**CliftonLarsonAllen, LLP**

**Contract Type:** Personal Service Contract  
**Scope Summary:** Conduct an independent audit of the SR 520 Tolling System Financial Statements (Washington State System of Eligible Toll Facilities). The audit must be performed with sufficient audit work necessary to express an opinion on the fair presentation of the SR520 Tolling System Financial Statements under Generally Accepted Auditing Standards (GAAS) as established by the Auditing Standards Board of the American Institute of Certified Public Accountants (AICPA).  
**Timelines:** 4/15/2018 through 4/14/2024  
**Deliverables:** Conduct an entrance meeting with WSDOT, identify critical audit areas and significant provisions of laws and regulations, perform a preliminary overall risk assessment, establish a protocol and timetable for the fieldwork phase of the audit, test controls over certain key cycles, and provide WSDOT with status reports during the course of the audit fieldwork. As in all phases of the audit, the CONTRACTOR will be in communication with WSDOT to determine that all identified issues are resolved in a timely manner. The CONTRACTOR will also hold a final exit conference with WSDOT to summarize the results of the fieldwork and review significant findings. The CONTRACTOR will provide an Independent Auditors' Report and Management Letter, and also make a formal presentation of the results of the audit to those charged with governance of the WSDOT, if requested.

Fagan Consulting, LLC

**Contract Type:** Personal Service Contract

**Scope Summary:** FAGAN CONSULTING (CONSULTANT) has been directed by the DIRECTOR OF TOLLING to convene an Expert Review Panel (ERP) to assist WSDOT (STATE) by providing independent industry review, advice and feedback as requested on any toll business practice, with a near term focus on implementing new back office and customer service vendor contracts at the end of the current vendor’s contract term. To the extent possible it is desired to maintain continuity with the previous Toll Division Expert Review Panel to take maximum advantage of knowledge and history gained through experience with the WSDOT toll program.

**Timelines:** 9/4/2018 through 6/30/2022

**Deliverables:** Provide agendas, meeting notes, evaluation and options memos, document review memos, and monthly progress reports.

Contract Y11038-DN

Scope Summary: Work with the State to plan for regional and national interoperability. The CONSULTANT shall work with the STATE to adopt the 6C protocol nationwide.

Timelines: 7/1/2019 through 6/30/2021

Deliverables: Interoperability strategy options white paper, draft and final specifications for toll system changes, draft and final comments on design, development and testing documents, draft and final results of interoperability verification testing, comments on NIOP business rules and ICDs, draft and final documents for interoperability, interagency meeting agendas, notes and action items, draft and final comments on regulatory updates, user agreements and other legal requirements; Western Region meeting agendas, notes and action items, draft and final Transition Plan documents, draft updates to WRTO technical documentation, comment on Western Regional MOU and technical documents; 6C Coalition quarterly and ad-hoc technical meeting agendas, notes, and action items, participation in 6C meetings, draft and final comments on 6C development and testing documents, draft and final comments on CTOC 6C specification and testing documents; draft and final technical papers evaluating selected emerging technologies, technology meeting agendas, notes, and action items, draft and final Feasibility Analyses, Comments on transponder procurement documents and functionality evaluation.

Contract Y11038-DR

Scope Summary: Provide a broad spectrum of management support for financial operations as part of the integrated toll management team.

Timelines: 10/15/2019 through 6/30/2021

Deliverables: Draft and final Toll Cost of Collection report, final Cost of Collection model, and Toll Cost of Collection Presentation file.

Contract Y11038-DS

Scope Summary: Provide support for the SR 99 traffic performance monitoring data collection, analysis, and reporting program as part of the integrated toll management team.

Timelines: 11/09/2019 through 3/31/2021

Deliverables: Monitoring Plan Change log, Updated SR 99 Corridor Performance Monitoring Plan, data collection, daily and weekly Go Live reports, and final performance reports.

Contract Y11038-DT

Scope Summary: Provides Program Management support and expertise as part of the integrated toll management team.

Timelines: 7/1/2019 through 6/30/2021

Deliverables: General Toll Consultant weekly budget tracker, task order status tracking reports and up to (2) technical memorandums as requested.

Contract Y11038-DU

Scope Summary: Provide a broad spectrum of management and operations support that includes a range of tasks for day-to-day management support for Customer Service Operations.

Timelines: 7/1/2019 through 6/30/2021

Deliverables: Technical memoranda and plans as required, draft and final training plan and materials; draft and final operational and monitoring tolls and reports training plan and materials.
Maul Foster & Alongi Inc

**Contract Type:** Personal Service Contract  
**Scope Summary:** Provides government relations/strategic communications support for the Toll Division.  
**Timelines:** 01/07/2020 through 06/30/2021  
**Deliverables:** Bill analysis for identified legislation, legislation report(s), ongoing coordination with legislative staff, and development, review and assistance with implementation of communication and outreach plans and strategies related to Toll Division initiatives.

**Contract K1080**  
**Scope Summary:** Develop a detailed schedule of all IV&V activities based upon the WSDOT project schedule. PCG will perform a review of agreed upon project artifacts anticipating under the pre-implementation planning and procurement phase of the CSC BOS system integrator. Work collaboratively with the WSDOT project team to provide expert advice that will contribute to the overall success of the project. Provide
independent bi-weekly status reports that are reflection of best practices, industry standards, and the knowledge and experience of the team.  
**Timeliness:** 10/10/2016 through 3/31/2021  
**Deliverables:** Monthly briefings, status reports, prepare and submit a work plan, assess and recommend improvements as needed to assure executive stakeholder support, verify Project Management Plan is being followed, review and evaluate ongoing project document artifacts, review and make recommendations on the procurement process, and review the technical proposal and work plan of apparent selected CSC BOS vendor in preparation for contract negotiations.

**Contract K1118**  
**Scope Summary:** Develop a detailed schedule of all QA activities based upon the WSDOT project schedule. PCG will perform a read for information (FYI) or review and provide input of agreed upon project artifacts anticipating under the pre-implementation planning phase of the CSC BOS vendor. Work collaboratively with the WSDOT project team to provide expert advice that will contribute to the overall success of the project. Provide independent bi-weekly status reports that are reflection of best practices, industry standards, and the knowledge and experience of the team.  
**Timeliness:** 4/10/2017 through 3/31/2021  
**Deliverables:** Participate in Project Management meetings, create the QA plan, review the investment plan, conduct QA reviews and create written report status of the project readiness assessment, address risk areas that can affect or delay the project, review project change requests, continuously update the Quality Records Library, and on-going/regular assessment of project plan, schedule, project status reporting, and execution of project management plan.

**Stantec Consulting Services, Inc.**  
**Contract Type:** Personal Service Contract  
**Scope Summary:** Primary focus is to provide core resource staff for traffic and revenue forecasting and analytical support of the Toll Division. Ongoing work under this agreement will be transferred to Y12321 for completion.  
**Timelines:** 7/1/2019 through 11/30/2019  
**Deliverables:** Deliverables as requested by the state. Examples include traffic forecasting, impact analyses, revenue projections, and feasibility studies.

**Timelines:** 11/9/2019 through 6/30/2021  
**Deliverables:** Outline, schedule, agenda and meeting notes; historical: traffic volumes, speeds, travel times, and origin-destination patterns, toll transaction data, revenue data, toll rate information and traffic data for the SR 99 Tunnel before tolling was implemented; socio-economic assumptions table for population, households and employment; traffic and gross toll revenue potential tables for each forecast update by
vehicle type and by payment method through FY 2059; technical memoranda; monthly summary of the SR 99 Tunnel with comparison of performance versus forecast; traffic and revenue forecasts for additional toll rate alternatives during FY 2021.

**WSP USA, Inc.**

**Contract Type:** Personal Service Contract

**Scope Summary:** Prepare updated SR 520 and SR 99 Annual Net Revenue Forecast, provide SR 520 and SR 99 Toll Policy/Rate Setting support, and provide on-going financial planning and analysis support for SR 520, I-405 and SR 99 upon toll commencement (additional facilitates may be added as needed).

**Timelines:** 7/18/2018 through 6/30/2021
4. Vendor and Non-Vendor Expenditures

Legislative Request
As required by Section 209 (4) of ESHB 1160, the following is the quarterly report to the Governor and the Transportation Committees of the Legislature on the non-vendor costs of administering toll operations. This includes the costs of staffing the division, consultants and other personal service contracts required for technical oversight and management assistance, insurance, payments related to credit card processing, transponder purchases and inventory management, facility operations and maintenance, and other miscellaneous non-vendor costs and the vendor-related costs of operating tolled facilities. In addition, it includes the costs of the customer service center, cash collections on the Tacoma Narrows Bridge, electronic payment processing, toll collection equipment maintenance, renewal, and replacement.

Notable (in comparison with FY21 Q2)
- Consultant expenditures were higher in the third quarter due to the following reasons:
  - Increased costs related to work done to support toll rate setting analysis on SR 520, SR 99 and TNB for Transportation Commission review.
  - Increased costs to complete the SR 99 Performance Monitoring task, which was paused through October 2021 due to pandemic, then ramped up in third quarter (March) for the final report.
  - Increased costs related to work continue to traffic and revenue analysis scenarios ramp up in the third quarter for the I-405 Renton to Bellevue task.
- Toll collection system operations and maintenance costs decreased since the lane system vendor (Kaptch) payments for coordination work with new back office system vendor (ETAN) from April 2020 to December 2020 were paid in the second quarter.
- Office of Administrative Hearings (OAH) costs decreased since remaining partial payments for five months were paid in the second quarter after agreement amendment for time extension was executed.
