Upcoming Main Street Bridge closure and demolition

The Main Street Bridge across I-405 in Bellevue will be closed for up to five months starting as early as June 13, 2022, while WSDOT’s design-builder (the Flatiron-Lane Joint Venture) constructs a new Main Street Bridge over I-405. A signed detour will be in place.
What to expect during the long-term bridge closure

Work will begin with a full weekend closure of I-405 between Northeast Fourth Street and Southeast Eighth Street so crews can safely demolish the existing Main Street Bridge. This highway closure is scheduled to begin at 10 p.m. Friday, June 17, and end at 5 a.m. Monday, June 20 depending on the weather and other factors.

Main Street across I-405 will remain closed for up to five months while crews build a new bridge. Signs will direct drivers, pedestrians and bicyclists to nearby detours, but travelers should expect increased congestion in the area.

This work is part of the I-405, Renton to Bellevue Widening and Express Toll Lanes Project. Visit the project website to learn more: https://wsdot.wa.gov/I405Widening
