

Zero-Emission Vehicle Infrastructure Partnership (ZEVIP)

Notice of Proposed Awards

June 17, 2022

The Washington State Department of Transportation's Office of Innovative Partnerships released a notice of grant opportunity and grant application guide on March 14, 2022. This open and competitive solicitation announced the availability of \$9.8 million in grant funds for projects that either install direct current fast charging stations, upgrade existing electric vehicle charging stations, or install hydrogen fueling stations along priority corridors in Washington. Eligible applicants included non-profit organizations, Tribes, or governmental organizations, in cooperation with a private sector partner.

WSDOT conducted a webinar and formal question and answer period specific to this solicitation. WSDOT received 24 applications totaling \$39,084,690 in grant requests. These applications were reviewed and scored by a panel of experts from WSDOT, the Department of Commerce, the Department of Enterprise Services, the Department of Ecology, and Washington State University.

Table 1, Notice of Proposed Awards (NOPA), identifies the apparently successful applicants and the recommended funding level of awardees. WSDOT will email this NOPA to all parties that submitted an application through the solicitation and post the table on the ZEVIP website. Figure 1 displays the applicant site locations throughout Washington.

Funding of proposed projects resulting from this solicitation is contingent upon successful negotiation with applicants to finalize the project scope and funding level. No agreement between WSDOT and the apparently successful awardee is in effect until the agreement is signed by both the grant recipient and WSDOT's representative. Apparently successful awardees may not release informational pamphlets, press releases, and/or similar public notices concerning this project without obtaining prior written approval from WSDOT.

Questions should be directed to: Kara Symonds, ZEVIP Grant Manager
Washington State Department of Transportation
Phone: (360) 480-5053, Email: symondk@wsdot.wa.gov
