Engineering Geology & Landslide Geotechnical Project Delivery

Scoring Criteria 1: Qualifications/Expertise of the CONSULTANT.

Min pts 0 : Max pts 25

A. <u>Include the following items:</u>

- List the type(s) of engineering geology expertise the CONSULTANT can provided.
- How long has the CONSULTANT been providing this engineering geology expertise?
- From where will the CONSULTANT be able to respond to emergency callouts?
- Provide a listing of professional licenses/accreditations and certifications in Washington State that the CONSULTANT has; include the year that each license/accreditation was received for each person that might work on this contract, excluding support staff.
- Provide a short biography for each person that might work on this contract.

B. <u>Include the following items:</u>

Provide a landslide project that the CONSULTANT has completed or is currently working on that demonstrates landslide remediation using state-of-the art techniques.

C. Include the following items:

Provide a debris flow project that the CONSULTANT has completed or is currently working on that demonstrates landslide design using of state-of-the art techniques.

D. <u>Include the following items:</u>

Provide a response of how the CONSULTANT can achieve DBE goals in the face of limited time and money constraints placed on a project?

Scoring Criteria 2: Expertise/Experience in landslide and debris flow response, investigation, design, and construction support.

Min pts 0: Max pts 25

A. Include the following items:

Please describe a fast, low-cost technique/design that you utilized where you investigated, designed, and constructed a landslide mitigation in short periods of time (<12 months), even though minimum design standards might not have been achievable?

B. Include the following items:

Please describe a fast, low-cost technique/design that you utilized where you investigated, designed, and constructed a debris flow mitigation in short periods of time (<12 months), even though minimum design standards might not have been achievable?

Engineering Geology & Landslide Geotechnical Project Delivery

Scoring Criteria 3: Experience in emergency response situations.

Min pts 0 : Max pts 20

A. <u>Include the following items:</u>

Please describe a landslide or debris flow emergency response situation from initial site visit through construction that demonstrates the CONSULTANTS verbal and written communication with respect to their observations and recommendations.

Scoring Criteria 4: Knowledge of WSDOT design/contracting/construction and operating procedures.

Min pts 0 : Max pts 10

A. Include the following items:

- Describe the CONSULTANTS knowledge of WSDOT's operating procedures at the Geotechnical Office, Project Office, and Maintenance organizational levels.
- Describe the CONSULTANTS knowledge of WSDOT's geotechnical/engineering geology practices and design procedures.
- Describe the CONSULTANTS knowledge of WSDOT's contracting procedures.
- Describe the CONSULTANTS knowledge of WSDOT's Geotechnical Office construction support procedures.

Scoring Criteria 5: Demonstrated ability to respond with the appropriate design and construction support for a given project situation/budget/timeline.

Min pts 0 : Max pts 20

A. <u>Include the following items:</u>

Using a project described under scoring criteria 1, please describe how the CONSULTANT met the needs of the client and why a specific design was chosen over another.

B. Include the following items:

Using a project described under scoring criteria 2, please describe how the CONSULTANT met the needs of the client and why a specific design was chosen over another.

Engineering Geology & Landslide Geotechnical Project Delivery

Scoring Criteria 6: References/Past Performances (Prime Consultant Only)

Min pts 0 : Max pts 0

A. <u>Include the following items:</u>

Provide a minimum of three (3) with a maximum of five (5) performance evaluations for either WSDOT projects, non-WSDOT projects, or a combination of both that are either currently active projects or that has a project completion date within the last three (3) years. These must be included in your Packet B.

Performance Evaluations on WSDOT projects:

If you wish to have a Performance Evaluation completed on a WSDOT project, please contact the WSDOT project manager and have them complete WSDOT's internal Filemaker Pro form 272-019 "Performance Evaluations – Consultant Services."

Performance Evaluations for Non-WSDOT projects:

If your firm does not have performance evaluations with WSDOT, it is necessary to have an evaluation of past performance completed by a client. You are required to use the WSDOT provided form and have it completed by your client. We will not accept your client version of a performance evaluation form. The WSDOT version of the evaluation form may be obtained by clicking on the link "Performance Evaluation Completed by Reference" which can be found on the main web page for this advertisement.

Scoring Criteria 7: Contractor Certification – Workers' Rights (Prime and Sub-Consultants) Min pts 0: Max pts 0

A. <u>Include the following items:</u>

Contractor Certification - Workers' Rights.

 Please fill out the form titled "Contractor Certification - Workers' Rights" linked on the advertisement webpage. The form can be found under the heading "Submit Required Forms."
