CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

IMPORTANT DATES

May 21, 2024	WSDOT posts notice of funding opportunity.
June 18, 2024	Grant application available in the Grants Management System (GMS).
June 19 – Sept. 16, 2024	WSDOT staff available for questions and technical assistance.
3 p.m. Sept. 17, 2024	Grant applications due in GMS.
Sept. 18 – Oct. 31, 2024	WSDOT reviews applications and contacts applicants for any revisions or additional information.
Nov. 1-18, 2024	Applicants revise applications, as necessary.
3 p.m. Nov. 19, 2024	Revised applications due in GMS.
Jan. 28, 2025	Regional rankings due from regional transportation planning organizations.
February – April 2025	Independent evaluation panel reviews and scores applications. WSDOT assigns funds and develops final funding list.
May 2025	WSDOT sends grant award letters to grantees after the governor signs the transportation budget.
July 1, 2025	2025-2027 biennium begins.
June 30, 2027	2025-2027 biennium ends.

CHAPTER 1: OVERVIEW

ABOUT THE CONSOLIDATED GRANT PROGRAM

The Consolidated Grant Program provides funds for public transportation improvements within and between rural communities; tribal transportation; transportation services between cities; purchases of new buses and equipment; and public transportation services to seniors and people with disabilities.

This grant program is partially supported by state funding from Washington's Climate Commitment Act (CCA) (22.3 percent). The CCA supports Washington's climate action efforts by putting cap-and-invest dollars to work reducing climate pollution, creating jobs, and improving public health. Information about the CCA is available at www.climate.wa.gov.

This grant program is also supported by funding from the Multimodal Account (11.8 percent), Rural Mobility Account (12.7 percent), and federal sources (53.2 percent).

Program funding

WSDOT distributes a variety of state and federal grants through the Consolidated Grant Program to support public transportation programs.

The 2025-2027 biennium Consolidated Grant Program will make awards from six sources:

Federal Transit Administration funds

- [Enhanced Mobility of Seniors and Individuals with Disabilities \(Section 5310\)](#)
- [Formula Grants for Rural Areas \(Section 5311\)](#)
- [Buses and Bus Facilities \(Section 5339\(a\)\)](#)

State funds

- [Rural Mobility Grant Program](#)
- [Paratransit/Special Needs Grant Program](#)
- [Tribal Transit Mobility Grant Program](#)

Program goals

The goals of the Consolidated Grant Program are:

- **Address deficiencies** – Encourage communities to identify and address deficiencies in paratransit/special needs or rural public transportation.
- **Provide a community benefit** – Assist local areas with determining community benefits and support for paratransit/special needs or rural public transportation.
- **Preservation or enhancement** – Provide funding to preserve or enhance paratransit/special needs or rural public transportation where there is a demonstrated need and measurable benefit.
- **Community connections** – Support a sustainable network of transportation services within and between communities.
- **Financial partnerships** – Establish opportunities for collaboration among local jurisdictions; regional organizations; private sector agencies; and state, federal, and tribal governments.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Ensure stakeholders have a voice in project development. Encourage appropriate cost sharing for projects.

- **Support coordination and multimodal development** – Coordinate services with other transportation providers in a local area, as well as with other organizations potentially able to use or purchase the services. Consider all modes/forms of transportation beyond traditional sources to enhance the effectiveness of local services.
- **Maintain fleets** – Maintain the percentage of transit vehicles in the state within their minimum useful life.

CHANGES FOR 2025-2027

The 2025-2027 biennium Consolidated Grant application includes multiple changes that will affect the submission and review of the grant applications:

- The timeline has been moved one month earlier to give the regional transportation planning agencies more time between final application submissions and regional ranking activities.
- Created new funding opportunity: small construction.
- Removed \$50,000 cap on planning projects.
- Moved some questions to new/different sections of the application. See [Relationship to other projects](#) and [Planning and coordination](#).
- Added new section for indirect costs.
- Reorganized and labeled Attachments section to include [Required for all projects](#), [Required for new non-profit applicants only](#), [Conditionally required](#), [Optional](#), and [Optional for construction \(not applicable for operating, mobility management, and planning projects\)](#)
- Added a risk question to [Milestones](#).
- Added requirement to upload procurement plan in capital applications.
- Removed Electricity and Biofuels Use section.
- Added inclusive planning question to [Vulnerable populations in overburdened communities and tribes](#).
- Added new section [Environmental justice assessment](#).

APPLICATION DEADLINE

3 p.m. Tuesday, Sept. 17, 2024

FATAL FLAW POLICY

WSDOT follows a formal fatal flaw policy for its grant applications. WSDOT considers the following to be fatal flaws that will cause an application to be rejected:

- The applicant is not in compliance with WSDOT's In Good Standing Policy.
- A regional planning organization has not ranked or will not rank the project.
- The applicant has not pledged the required minimum local match.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

WSDOT's evaluation panel won't score applications with fatal flaws.

IN-GOOD-STANDING POLICY

WSDOT is responsible for administering grant funds in accordance with state and federal laws. WSDOT has an in-good-standing policy to ensure compliance with state and federal laws and commonly recognized best practices for grant management.

All grant recipients must maintain in-good-standing status to receive payments and be eligible for future funding consideration from WSDOT.

For more information on WSDOT's in-good-standing policy and processes, the [WSDOT Public Transportation State Grant Programs Guidebook](#).

ELIGIBLE APPLICANTS

Eligible applicants include nonprofits, tribes, public transit agencies, and local agencies in Washington state.

ELIGIBILITY FOR SUSTAINING PROJECTS

Vehicle and equipment grants are considered new, two-year projects.

TRANSIT FORMULA FUNDS

Agencies eligible for Rural Sales Tax Equalization, Paratransit/Special Needs, and Transit Support formula funds shouldn't submit a formula project through this process. WSDOT will notify you if your organization is awarded formula funds.

MATCHING FUNDS

Capital projects require cash matching funds. The project cannot derive the matching funds from sources that place any restrictions on the services provided with the grant-funded equipment or that place a lien on the grant-funded equipment. In-kind contributions are not eligible with capital projects.

Projects receiving funds from other federal agencies (i.e., non-U.S. Department of Transportation funds) may use those funds for the entire match requirement. Projects may also use U.S. Department of Transportation funds provided through the Federal Lands Highway Program as match for Section 5310, 5311, and 5339 programs.

WSDOT may award state funds to provide a portion of the funds needed to meet federal match requirements.

Projects must adhere to the match ratio in their application, regardless of the minimum level of match required. Should project savings occur, WSDOT will apply the savings proportionally to the project's matching funds and the Consolidated Grant award.

The tables below show match requirements for state and federal grant sources in the Consolidated Grant Program.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Match required from local sources for state grants

Capital	90%	10%

Match required from local sources for federal grants

Capital	80%	20%

PASSENGER FARES AND DONATIONS

Applicants may not use passenger fares or passenger donations as matching funds. Applicants must deduct fares and passenger donations from gross expenses to determine net expenses.

Applicants may use donations made directly to their agency as matching funds.

COORDINATION OF SERVICES AND FUNDING

WSDOT will evaluate only applications ranked by a metropolitan planning organization or regional transportation planning organization for the 2025-2027 biennium Consolidated Grant Program.

Additionally, applicants must base their projects on the needs and strategies identified in their metropolitan planning organization or regional transportation planning organization's regional coordinated public transit-human services transportation plan.

WSDOT also expects applicants to coordinate services with other transportation providers in their area, as well as other organizations that can use or purchase services the applicant provides. WSDOT verifies activity related to this requirement during the application process. WSDOT recommends that applicants notify and coordinate with local transit systems if the applicant has located their project within a public transit service district.

CHAPTER 2: APPLYING FOR FUNDING

GRANTS MANAGEMENT SYSTEM

Applicants must be registered in the GMS before accessing the application. The [GMS registration instructions](#) provide a step-by-step guide for new users to create an account. WSDOT strongly encourages applicants to complete GMS registration prior to the application opening.

For additional assistance with GMS registration and training, email PTDGMSsupport@wsdot.wa.gov or call 360-705-7711.

APPLICATION PROCESS

Applicants must submit applications by 3 p.m. Tuesday, Sept. 17, 2024. WSDOT won't accept late applications.

Space is limited in the application's narrative boxes. Applicants that need more room for their answers should use the supplemental information section near the end of the application. Applicants may also use the supplemental information section to describe how their application aligns with regional priorities.

GMS will confirm submission of each application. The confirmation won't include an assessment of the completeness of the application.

NUMBER OF APPLICATIONS

Organizations may submit an unlimited number of applications. Organizations must submit separate applications for each project.

Organizations may submit projects for the following project types:

- Sustaining operations
- Sustaining mobility management
- New/expanding operations
- New/expanding mobility management
- Capital
- Planning

Note: Applicants may print applications from the "application details" screen in GMS. However, WSDOT won't accept scanned or printed applications.

CHAPTER 3: APPLICATION QUESTIONS

STARTING THE APPLICATION

Note: If you haven't yet registered for GMS, contact the help desk at PTDGMSsupport@wsdot.wa.gov or 360-705-7711 or visit the [GMS Announcements panel](#) before proceeding.

1. Access GMS.
2. Select "funding opportunities" in the left-hand column.
3. Select the vehicles and equipment Consolidated Grant Program opportunity.
4. The first time you access a funding opportunity, select "start new application." When you return to GMS, you'll find your draft applications listed under "current applications" in the "applications module."
5. Open and scroll down in each of the application's dropdown menus to input information.
6. As you input information into sections, select "save form" often. Some fields won't be visible if you don't save the prior section.
7. When you complete a section, click the orange "mark as complete" button.

PREVIEWING THE APPLICATION

As you complete sections of the application, the "application details" screen will update the status of each section.

You may select any of the incomplete components to continue with the application.

Note: If you only see a full application preview and not a list of sections, select "edit application."

GENERAL INFORMATION

Application creation wizard

After selecting "start new application," GMS will open the application creation wizard.

Your organization's information should already be in the system upon registration.

Input the following:

Step 1 Application title – The exact title of the project as ranked for the 2025-2027 biennium by the metropolitan planning organization or regional transportation planning organization in its coordinated public transit-human services transportation plan.

Titles shouldn't be long and may be as brief as two words. You'll have a chance to provide a more detailed description of the project later in the application.

Step 2 Primary contact – This information should self-populate based on your login.

Select "save form" and move to the next section.

Step 3 Organization – If your organization's name hasn't self-populated, use the dropdown menu to choose your organization.

Select "save form" and move to the next section.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Step 4 Additional applicants – From the dropdown menu, add other members of the agency staff who'll need access to the application, including the staff person that's authorized to submit the application on behalf of your organization. (This responsibility may be delegated to the grants manager, budget manager, or other related position.) The dropdown menu includes names at your organization that were added during registration.

Select "save form" button and move to next page.

1. ORGANIZATION CONTACT INFORMATION

Complete all required fields to enter the appropriate contact information. You may list the same person multiple times.

2. SUMMARY OF PROJECT INFORMATION

Capital project

Examples of eligible capital projects include, but are not limited to:

- Purchasing buses, vans, and other passenger-service vehicles.
- Refurbishing existing passenger-service vehicles.
- Retrofitting vehicles for wheelchair lifts.
- Purchasing equipment needed for new technologies that enhance public transportation operations, mobility, and access.
- Purchasing other equipment such as bicycle racks and fare boxes.
- Purchasing replacement parts for passenger-service vehicles.
- Purchasing radios and communications equipment.
- Purchasing bus-passenger shelters.
- Purchasing security equipment.
- Purchasing computer hardware and software, including dispatching software and data systems.
- Purchasing maintenance equipment (e.g., bus lifts, specialized diagnostic tools).

Note: Grantees must use all equipment purchased through the Consolidated Grant program to provide the passenger transportation services outlined in the project application.

Capital type

Select your project type(s) from the dropdown menu.

Fleet expansion

Select this option if your organization is applying to expand your fleet of revenue transit vehicles. Non-revenue vehicles such as a supervisor van are classified as equipment in this application.

Fleet replacement

Select this option if your organization is applying to replace revenue vehicles in your fleet. (Non-revenue vehicles, such as a supervisor van, are classified as equipment in this application.)

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Equipment

Select this option if your project is for the purchase of non-vehicle equipment or non-revenue vehicles, like a supervisor van.

If your project includes standalone electric vehicle charging infrastructure (not part of facility construction), contact ptdgrants@wsdot.wa.gov to determine if your project should be categorized as an equipment or construction project.

Information technology

Select this option if your organization is purchasing information technology to support public transportation services.

Are you willing to accept Federal Transit Administration funds?

Select “yes” or “no.”

Note: Selecting “yes” indicates that your organization is willing and able to comply with the associated requirements for federal funds. For examples of last biennium’s federal requirements, see the [Consolidated Grant Guidebook](#).

Certain federal fund types require a U.S. Department of Transportation Drug and Alcohol Testing Program.

Identify the areas this project will serve

Use the dropdown boxes to choose the state legislative district(s), congressional district(s), and county(ies) your project will serve (include the entire project area).

3. SCOPE OF WORK

Project description

Regional transportation planning organization/metropolitan planning organization

Select the metropolitan planning organization or regional transportation planning organization that will or has ranked your project. If you aren’t sure which organization this is, review [WSDOT’s planning contact directory](#).

Project description

Briefly and specifically describe what your project proposes to do (i.e., for whom, what, and where). This description may be used to describe your project to the Legislature.

Examples:

- Purchase 24-foot bus to sustain rural commuter routes for the general public in Yakima County.
- Procure stand-alone charging equipment for transit hub in Wenatchee.

Project need

Describe why this project is needed and how this proposal addresses the need.

Include:

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

- A description of the transportation problem that matches the need expressed in the metropolitan planning organization or regional transportation planning organization's coordinated public transit-human services transportation plan.
- How the problem was identified.
- How the proposed project will address the problem.

Area served

Is this project primarily serving a rural area?

Select "yes" or "no" based on the customers your project will serve. If no, the following question will appear:

Is this project primarily serving the Seattle, Tacoma, Everett urbanized area?

Select "yes" or "no."

Special needs transportation

If your project involves special needs transportation, describe how your project advances efficiencies in, accessibility to, or coordination of transportation services for people with special transportation needs.

To be eligible for funding for special needs transportation, you must address how your project advances the efficiency, accessibility, and/or coordination of service for people with special transportation needs ([RCW 47.01.450](#)). Describe how your project advances these areas and how you're developing these advancements.

Additionally, identify the special needs population(s) your project will serve.

Project staff

Identify the staff members who'll work on this project.

Describe each person's level of experience managing projects similar to the proposed project.

Select "save form."

4. RELATIONSHIP TO OTHER PROJECTS

The Public Transportation Division has many different funding opportunities for which a single project may be eligible. Due to our awarding timelines, we recognize that an applicant may not know the results of an application until the beginning of a new biennium.

Your responses to the questions in this section will inform grant administrators of relationships between your projects, thereby reducing the potential for duplicate awards for the same project or failure to award projects that are dependent on one another.

Is your project dependent on any other projects submitted by your organization?

Select "yes" or "no."

If yes, describe the relationship between the projects in both applications. Identify the priority for funding (if applicable).

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Did you apply for this project in another grant program this biennium?

Select “yes” or “no.”

If yes, identify the grant program(s). Select “other” to indicate any local, state, or federal assistance requests not through WSDOT Public Transportation Division and enter the name(s) of the other grant program(s).

Did you apply for the same project in a prior biennium and not receive funding?

Select “yes” or “no.”

Are you applying for other projects within this funding opportunity?

Select “yes” or “no.”

If yes, provide the titles of other applications in order of priority.

Select “save form.” Then select the orange “mark as complete” button.

5. PLANNING AND COORDINATION

Coordinated public transit-human services transportation plans

Take the following steps to describe how the need for your project is documented in a coordinated public transit-human services transportation plan and other plans:

1. Select “save multi-list.”
2. Select “add row” and specifically identify the regional coordinated public transit-human services transportation plan that ranked your project.
3. Enter the element of the plan where the need for your project is identified. Choose one of the two options:
 - o Strategies and activities identified to address gaps.
 - o Regional priorities for implementation.
4. Include page numbers where the plan identifies the need your project addresses. If your region hasn’t finalized its plan and you don’t have a page number, enter “TBD” in the page number field.
5. Describe how your project meets the need in the coordinated public transit-human services transportation plan.
6. Once you’ve input all information, select “save row.”

Additionally, because a project may affect more than one planning region, you must identify all other plans that identify the need your project addresses in the same manner. You can add additional coordinated public transit-human services transportation plan by selecting the “add row” button and repeating the steps above.

Project coordination

Coordination efforts

Select “edit form.”

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Describe coordination with your metropolitan planning organization, regional transportation planning organization, and other local or regional partners for your project.

Include details such as:

- The project's inclusion in regional plans.
- What prioritized strategies the project addresses.
- Who you involved to define the transportation problem the project addresses.
- Other alternatives that were/are being considered for solving the problem.
- Demonstrations of local/regional coordination for implementing the proposed project.

Check the acknowledgment box to indicate that you coordinated or will coordinate this project with the planning organization(s) within the region(s) this project serves.

Multimodal partnerships

Describe how your project connects to, coordinates with, leverages, or enhances other modes of transportation in your service area (i.e., aviation, intercity bus or rail, park and rides, bicycle/pedestrian).

Include in your response how the multimodal partnerships for this project will improve or enhance access to social services. Additionally, describe what efficiencies will be gained within the service area because of this project?

Select "yes" or "no" to indicate if this project has a planning or operating service area that crosses regional transportation planning organization planning boundaries.

When done, select the orange "mark as complete" button.

6. VEHICLES AND EQUIPMENT BUDGET

Expenses

Provide budget details for project activities in the appropriate table by adding rows.

To begin adding rows to budget tables, click the green "save form" button on the page. Next, select "add row" for each expense source.

For vehicle and equipment projects, leave the current biennium (i.e., 2023-2025) fields blank.

Add as many rows as needed. Select "save row" after entering each expense type.

Don't be concerned about dollar formatting in budget fields. After saving rows, the formatting will correct itself. Enter whole dollars only. Don't enter cents.

Don't select "mark as complete" until you complete all budget tables and all subsequent questions in the budget section.

Transit vehicles

You must enter each requested transit vehicle as a separate line item using the "add row" function.

Round all amounts to the nearest dollar. Do not include cents. Vehicle projects are two years only.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Replace, expand, or rebuild

Indicate whether the transit vehicle purchase is to expand the fleet, replace a vehicle, or rebuild a vehicle.

Definitions

Replacement: The replacement of vehicles having reached the end of their minimum useful life to maintain existing transit service.

Expansion: The acquisition of vehicles for expansion of transit service.

Rebuild: Rebuilding a vehicle that has reached the end of its minimum useful life, in order to extend the minimum useful life by at least four years.

Vehicle description

Choose the vehicle type from the dropdown menu.

Useful life

Enter the corresponding years of useful life from the vehicle description.

Passenger seating

Indicate the number of seats (not counting driver) when the vehicle is at maximum capacity, with no adjustments for wheelchair stations.

Wheelchair stations

Indicate the number of wheelchair-securement positions the vehicle will accommodate. If the vehicle has no ADA-accessible seating, enter zero.

Fuel type

Select the appropriate type of fuel from the dropdown menu.

Cost description

Describe the calculation of base cost of the vehicle plus any accessories bundled into the price of the vehicle. Example: Vehicle base cost \$40,000 + Lift \$5,000.

Total cost of vehicle w/accessories

Identify your independent cost estimate of each vehicle or other equipment item. Be sure to account for the cost of the additional features as part of the vehicle's total cost.

If you are not sure of the cost, contact PTDProcurement@wsdot.wa.gov.

For estimates, use the sales tax rate charged in your area. If you are a public transit agency, the portion of the local tax rate collected for transit purposes is not eligible for reimbursement. Therefore, you should reduce the amount estimated by that percentage. For example, if your local tax rate is 7.9% and the transit share of this tax is 0.3%, you should calculate the sales tax at 7.6%.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Note: Relying on historical purchase prices for your estimates may fail to consider inflation, model changes, and current market conditions.

Note: Vehicles carrying 15 or fewer passengers used for vanpooling or special needs transportation are not subject to sales tax ([RCW 82.08.0287](#)). To exercise this option, the vehicle must qualify for and be licensed with rideshare plates through the Washington State Department of Licensing.

Match

Enter your organization's matching funds for the vehicle.

Requested amount

Total project cost, less local match. This amount is auto-calculated by the GMS.

Click the green "Save Row" button.

Equipment

Equipment is defined as an article of nonexpendable, tangible property that has a useful life of at least one year. Any standalone equipment that isn't associated with a revenue vehicle or isn't connected to a facility, such as a service vehicle (vehicles used to maintain revenue vehicles, perform transit-oriented administrative duties, etc.) will have its own budget line item. Equipment projects are two years only.

Develop your budget line item(s) using the following guidelines:

- Equipment with a replacement value greater than \$50,000 must have an individual budget line item for each piece of equipment. This piece of equipment will become a new individual asset in your Transit Asset Management Plan.
- Service vehicles of any replacement value must have an individual budget line item for each service vehicle.
- Equipment with an individual replacement value less than \$50,000 (except electric vehicle chargers) will be one line item with a combined total cost. For example, if the grant is purchasing 10 pieces of equipment at \$2,000 each, the line item will be for \$20,000 total. For two pieces of equipment at \$30,000 each, the line item will be for \$60,000 total.
- Electric vehicle chargers must have an individual budget line item regardless of cost. Make each charger a separate line item.
- Equipment installation costs must be an individual budget line item separate from the equipment itself and will include all installation costs such as design, installation, etc.

Round your Total Cost and Match amount to the nearest dollar. Do not include cents in your budget.

Equipment description

Identify and briefly describe the equipment you are requesting. If applicable, include the number and cost per item.

Total cost

Enter the total cost of the equipment.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Match

Enter your organization's matching funds for the equipment.

Requested amount

Total project cost, less local match. This amount is auto-calculated by the GMS.

Click the green "Save Row" button.

Sources of Match

Add as many source rows as needed. Click the green "Add Row" button to enter each match source.

Match sources are funding sources other than passenger fares and ride donations used to support your project and meet matching funds requirements.

Select the appropriate category of match sources from the dropdown menu and populate the table for your project.

Do not include:

- Revenues you will retain for transportation reserve accounts.
- Revenues you will use or have used for capital purchases.
- Revenues from federal and/or state grants you have not yet secured.
- Fares and (in a fare-free system) donations in lieu of fares. While you may consider these revenues, FTA regulations and WSDOT policy require that you deduct passenger fares and donations from the gross project cost. You also may not use passenger fares or passenger donations as matching funds.

For existing projects, enter the actual and budgeted match source for the current project for each funding type. Then, add next biennium's projected match sources. If you are applying for four years of funding, provide projected match amounts for the second biennium (i.e., 2027–2029).

Federal funds

Funds received from the U.S. Department of Transportation and other federal agencies, excluding any WSDOT or FTA funds requested with your application.

Note: Medicaid is a federal source.

State funds

Funds received from WSDOT and other state agencies, excluding competitive state-funded grants administered by WSDOT Public Transportation Division.

Local funds

Revenue generated from local sources including, but not limited to:

- Taxing authority (i.e., transit taxes).
- Funds received from county or municipal sources.
- Other local or private grant awards.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

- Income generated from service contracts or other internal activities (e.g., freight, advertising).

Other

Includes all other revenue sources not identified in the dropdown menu that you will use to support the project.

In-kind contributions (i.e., in-kind match) are not an eligible source of match for capital projects. Capital projects require cash matching funds.

Click the green “Save Row” button.

Scalable

The Public Transportation Division may use its discretion to provide a partial award to capital project when funding is limited, or to make the best use of grant funds.

Say whether your project is scalable (Yes/No). If scalable, specify the minimum funds needed and describe the scalability of your project.

For example, if you propose to purchase two buses to replace existing buses but are willing to accept funding for one bus due to funding availability, identify your willingness to reduce the scope of your project accordingly.

Click the green “Save Form” button.

ADA accessibility

Click the green “Edit Form” button and describe how your agency will ensure and provide ADA accessibility.

Indicate whether the vehicles proposed for purchase meet the requirements of [49 CFR Part 38, ADA Accessibility Specifications for Transportation Vehicles](#).

For more information on ADA accessibility specifications, visit the [U.S. Access Board’s transportation vehicles webpage](#).

Click the green “Save Form” button.

Procurement plan

Click “Edit Form” and describe your procurement plan for the vehicles and/or equipment in this application.

When complete, click the green “Save Form” button.

Your organization must have a current procurement policy on file with WSDOT. If your organization doesn’t yet have a policy on file with WSDOT, or the version on file is outdated, you need to attach the procurement policy in the Attachments section of the application.

Click the green “Save Form” button.

Spare ratio

You’re responsible for maintaining a spare ratio in alignment with [Circular FTA C 5010.1E](#).

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Spare ratio includes active vehicles and not surplus vehicles. Spare ratios shouldn't exceed 20 percent. If your spare ratio is greater than 20 percent, WSDOT will consider your capital vehicle application lower priority.

Exceptions to the 20 percent spare ratio apply in limited circumstances related to an organization changing to a new propulsion type.

For more information about spare ratio, see:

- [Bus Procurement Frequently Asked Questions | FTA \(dot.gov\)](#) and
- [Spare Ratio | FTA \(dot.gov\)](#).

Is your spare ratio at or below 20 percent?

Select "yes," "no," or "N/A."

Click the green "save form" button.

Other sources

Select "edit form" and describe your efforts to leverage resources for your project from sources other than WSDOT. Also use this space to explain match sources you put in the "other" categories.

Describe any efforts or plans to:

- Leverage funds from other sources.
- Secure financial support from non-governmental organizations.
- Request additional funding from other governmental sources.

Additionally, use this space to describe any community partnerships that provide value, if not monetary.

Select "save form."

Budget development methodology

Describe how you developed the budget for your project.

Provide explanations for:

- Assumptions you used to develop the proposed budget.
- Any changes you made from previous grant-funded projects, if applicable.

Click the green "Save Form" button.

Summary

Summary sections will auto-populate based on the information you enter in the tables above.

7. VEHICLE REPLACEMENT

Are you replacing or rebuilding a vehicle?

If you are not replacing a vehicle, select "no" and "save form." Click the orange "Mark as Complete" button.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

If you are requesting to replace one or more vehicles that have reached the end of their useful life, select “yes,” and fill out the vehicle information in the section below.

Vehicle information

You must enter each vehicle separately. Click the green “Add Row” button to add each vehicle your project will replace. You must include these vehicles on your organization’s inventory report.

Identify the vehicles by:

- Replace or rebuild
- Vehicle type
- Year
- Make/Model
- Fuel type
- Remaining useful life. For vehicles past their useful life enter a negative indicating the number of years past useful life
- Vehicle identification number (VIN)
- Current status (i.e., active, spare)
- Current mileage
- Request to replace the same vehicle in a different Public Transportation Division grant application (yes/no)

Click the green “Save Row” button. If you’re replacing multiple vehicles, repeat the steps above.

Select the orange “mark as complete” button after saving all rows.

8. SERVICE LEVEL

Provide information on the levels of transportation services for your project.

Project service level information

Use the green “edit grid” and “save grid” buttons to access the fields in this section. The total of “actual and budgeted” and “percent of change” fields will auto-populate when you complete the grid and save.

Click the green “Save Grid” button.

Project service level description

How were service level estimates developed?

Describe the methodology you used to develop these estimates, including any assumptions you used to develop the estimates.

Click “save form.” Then select the orange “mark as complete” button.

9. MILESTONES

Project activities

Complete the milestone table for all project activities. Click the green “Edit Grid” button to begin.

If an activity isn’t applicable to your project, mark “No.” This application is for vehicles and equipment only. Mark all construction activities as “No.”

If a milestone is already completed, enter the completion date and add “Completed” to the notes.

- Solicitation (request for proposals or invitation for bid) published: Date the solicitation (RFP/IFB) is published or the date that the grantee obtains quotes for Simplified Acquisition purchases.
- Contract Award/Purchase order: Date of the purchase order or notice to proceed.
- First vehicle/piece of equipment accepted: Date the first vehicle/piece of equipment is accepted.
- All vehicles/pieces of equipment accepted: Date the last vehicle/piece of equipment is accepted.
- All vehicles/equipment placed in service: Date that the grantee has paid the vendor and all vehicles/equipment are in service.

Use the Equipment section for any equipment purchases for this project that are not part of your vehicle or construction request.

Note: You must expend all awarded grant funds and local match for the 2025-2027 biennium by June 30, 2027.

Click the green “Save Grid” button.

Milestone Risks

Consider what risks may impact the procurement and deployment of vehicles and equipment, such as contractor performance and supply-chain delays.

Identify and describe the risks that may affect the timely completion of your project and possible mitigation strategies.

10. SUPPLEMENTAL INFORMATION

You may use this space to elaborate on information provided in other sections of the application. You may also use this space to describe how this project aligns with regional goals and strategies. Keep your comments as brief as possible.

Click “save form,” then select the orange “mark as complete” button.

11. VULNERABLE POPULATIONS IN OVERBURDENED COMMUNITIES AND TRIBES

Vulnerable populations in overburdened communities

Select “edit form.”

Identify the type of direct and meaningful benefits to vulnerable populations your project provides, if any, using the examples in the first bulleted list below.

Explain how your project provides these benefits. Your response may include suggestions about how WSDOT should evaluate project(s) against CCA requirements in the future.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

Examples of direct and meaningful benefits ([RCW 70A.65.230\(1\)\(a\)](#)):

- Reducing vulnerable population characteristics, environmental burdens, or associated risks that contribute significantly to the cumulative impact designation of highly impacted communities.
- Meaningfully protecting an overburdened community from, or support community response to, the impacts of air pollution or climate change.
- Meeting a community need identified by vulnerable members of the community.

Vulnerable populations are population groups that are more likely to be at higher risk for poor health outcomes in response to environmental harms due to adverse socioeconomic factors and sensitivity factors. Vulnerable populations include but aren't limited to ([RCW 70A.02.010\(14\)\(a\)](#) and (b)):

- Racial or ethnic minorities.
- Low-income populations.
- Populations disproportionately impacted by environmental harms.
- Populations of workers experiencing environmental harms.

Overburdened communities are geographic communities that face disproportionate cumulative negative impacts from environmental health factors. Overburdened communities include but aren't limited to ([RCW 70A.65.010\(54\)](#)):

- Communities highly impacted by fossil fuel pollution and climate change.
- Communities located in census tracts that are fully or partially on "Indian country".
- Populations who may be exposed to environmental contaminants and pollutants outside of the geographic area in which they reside based on the populations' use of traditional or cultural foods and practices.

Inclusive planning

If vulnerable populations were engaged by your organization in developing or maintaining the project, describe the outreach efforts and results.

Tribal support

Select "yes" or "no" as to whether your project is directly operated by a tribe.

If "yes," select the "save form" button.

If "no," answer the additional questions related to tribal support. You must confirm your outreach to the tribe in pursuit of a resolution formally supporting your project by checking the box.

Tribal correspondence should confirm the tribe's intent to develop a resolution formally supporting your project. An email is sufficient. If you have a formal contract with the tribe, you may attach the contract to your application.

Attachments

If this project is supported by a tribal nation, attach correspondence from the tribe's transportation lead or similar position.

To add an attachment:

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

1. Select “Edit Form,” then click the “Select file” button.
2. An upload window will open.
3. Select and upload the file.

Upload the attachment in PDF format. Don’t attach encrypted files.

If we award your project, you should deliver the final resolution formally supporting your project prior to the end of your contract period.

No attachment is required if this project is directly operated by a tribal nation.

Click “save form.” Then select the orange “mark as complete” button.

12. ENVIRONMENTAL JUSTICE

Environmental justice in Washington state, as provided in the Healthy Environment for All Act (HEAL Act), addresses disproportionate environmental and health impacts in all laws, rules, and policies by prioritizing vulnerable populations and overburdened communities, the equitable distribution of resources and benefits, and eliminating harm ([RCW 70A.02.010](#)).

Public Transportation Division grant applications have new questions to determine if a project must meet HEAL Act environmental justice assessment requirements. The HEAL Act specifies types of significant agency actions that trigger an environmental justice assessment ([RCW 70A.02.010\(12\)](#)). These actions include grant applications of \$15 million or more from a single grant program. If your project has the potential to be a significant agency action, your organization should begin the environmental justice assessment prior to award.

If you apply for a grant of \$15 million or more, contact WSDOT for assistance in completing an environmental justice assessment early in the process.

Note: WSDOT Consolidated Grant Program awards may include a combination of state and federal funds. The \$15 million threshold applies to any single application/award in the Consolidated Grant Program.

Because we are awaiting final guidance from the Environmental Justice Council, please use this guidance to develop your good-faith effort when completing your environmental justice assessment.

Environmental justice assessment

You must conduct an environmental justice assessment if you apply for \$15 million or more in grant funds.

Select “yes” or “no” to indicate if you’re requesting \$15 million or more in WSDOT funds for your proposed project.

If you respond “no”, skip the sections below, save the form and mark it as complete.

Environmental justice assessment map

Attach a map showing the location of the proposed project, the geographic area likely to be affected, and the information about affected tribes, overburdened communities, or vulnerable populations that may be affected positively or negatively by the proposed project. Consider using the [Washington Environmental Health Disparities map](#).

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

To add an attachment:

1. Select “edit form,” then click the “select file” button.
2. An upload window will open.
3. Select and upload the file.

Select the green “save form” button.

Environmental justice assessment Completion

Enter the names of other agencies or governments (including affected tribes) that are involved with the project and their role.

Select “yes” or “no” to indicate if you have begun or completed the environmental justice assessment .

If “yes,” enter the name of a primary point of contact for the environmental justice assessment.

If “no,” enter the name of WSDOT staff (e.g., your assigned community transportation planner, tribal liaison, or project manager) you consulted, or will consult, about the expected environmental justice assessment work and the required report.

Environmental justice assessment reporting

Select “yes” or “no” to indicate if you sent the results of environmental justice assessment to WSDOT Public Transportation Division staff.

If “yes,” describe how and when did you report the results of environmental justice assessment.

If “no,” let us know when you plan to submit the results of your environmental justice assessment.

Click “save form,” then select the orange “mark as complete” button.

13. ATTACHMENTS

Upload the required attachments and any conditionally required or optional attachments that support your project. Provide a brief description of the file you've attached.

If awarded federal funds, you may be required to submit additional documents. For examples of last biennium's federal requirements see the [Consolidated Grant Guidebook](#).

To add attachments, click on attachment label to open upload window, select and upload the file, and add a description of the file.

Note: Save all attachments in PDF format. Don't upload encrypted or password-protected files.

Note: WSDOT will consider applications without required attachments, including applicable conditional attachments, incomplete.

Required for all projects

- Copy of your organization's most recent audit report.
- Population density map.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

You must attach a service area map that shows the general population density for each project.

If you need technical assistance to generate the population density map, contact your metropolitan planning organization/regional transportation planning organization or WSDOT staff.

- Service area map.

You must attach a map that clearly identifies the geographic area in which you'll provide service and/or the location of the project described in your application.

A PDF file is required but if you also have a shapefile, submit that as an additional optional file.

Note: If you're applying for funding for one or more specific routes, you must identify the routes on the service-area map.

Required for new nonprofit applicants only

- 501(c) IRS letter of determination.
- Certification from the Washington Utilities and Transportation Commission for new non-profit applicants that are direct service providers.

Conditionally required

- Indirect costs documentation (required if you're charging indirect costs to the project).
- In-kind match valuation proposal (required for operating and mobility management projects that are proposing to use in-kind matching funds).
- Procurement policy (required for new applicants or current grantees without a current policy on file with WSDOT).

Optional

- Letters committing matching funds.

If your organization is applying for a four-year grant, the match letter must commit to funding for all four years.

If you submit multiple letters committing matching funds, combine them into one PDF before uploading.

- Letter of concurrence from other metropolitan planning organizations or regional transportation planning organizations for projects that operate in multiple planning regions.
- Letters of support.

Letters of support should be addressed to your organization (not WSDOT), clearly reference your project, and identify the benefits that'll be gained if your project is funded.

Combine all letters of support into one PDF before uploading.

Note: Letters of support do not suffice for letters committing matching funds.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

- Supplemental information.

Optional for construction (not applicable for operating, mobility management, and planning projects)

- National/State Environmental Protection Act assessment, if available.
- Supplemental construction project information (i.e., building or site designs, site plans, location exhibits) if available.

Select the orange “mark as complete” button once you have uploaded all your attachments.

14. CERTIFICATION

Your application must be certified by someone authorized or delegated to sign contracts on behalf of your organization.

Complete this section by selecting “yes” in the certification field and typing the name of the authority, their title, and the date. This is the equivalent of an electronic signature. WSDOT doesn’t need to obtain your memo or letter delegating authority.

Note: You’ll be unable to submit your application until you select “yes.”

Note: Your application is subject to the public disclosure laws of Washington state ([RCW 42.56](#)). If any information is proprietary, let us know as it may be released during a public disclosure request.

CHAPTER 4: EVALUATION CRITERIA

WSDOT has criteria for evaluating applications in collaboration with partners and stakeholders. WSDOT evaluates all applications based on the extent to which:

1. The project establishes, preserves, or improves public transportation services within a community.
2. The project addresses a recognized need within the community.
3. The project reflects a community process of coordination and input.
4. The project leverages funds from other sources and/or documents local commitment to support the implementation of the project.
5. The project appears to be feasible as described.
6. The project connects to other systems and/or modes.
7. The project defines specific performance measures it will use to determine its success.
8. The project describes an active effort aimed at improving the efficiency and effectiveness of transportation services.
9. The applicant reports sufficient experience managing transportation projects and grants awards to ensure success.
10. The applicant reports sufficient financial capability and resources to implement and successfully carry out the project.
11. The applicant demonstrates a good faith effort to utilize and/or contract with disadvantaged businesses on the project.
12. The project contributes to the state's effort to maintain the number of public transportation vehicles within their minimum useful life.
13. For vehicle purchases, the project complies with state rules (Chapter 194-29 WAC) regarding alternative fuels.

CHAPTER 5: SELECTION PROCESS

PLANNING ORGANIZATION LETTER GRADES

Metropolitan planning organizations/regional transportation planning organizations award letter grades (i.e., A, B, C) through a regional ranking process based on local priorities. Letter grades are equivalent to extra points for proposed projects.

For more information, see [Project evaluation](#).

WSDOT INTERNAL REVIEW

WSDOT staff will perform an initial assessment of grant applications for compliance and completeness Oct. 18-31. WSDOT will contact applicants to provide additional information or adjust their applications, as needed. You should make yourself available during the internal review. You must submit any requested changes in GMS by 3 p.m., Nov. 19, 2024.

You may only adjust information that WSDOT requests during this internal review period. You may not adjust other information in your applications.

INDEPENDENT EVALUATION PANEL

WSDOT conducts its evaluation of projects using an independent panel of subject matter experts.

The panel is composed of subject matter experts with experience including, but not limited to:

- Coordinated special needs transportation
- Planning
- Rural transit operations
- Transit asset management
- Transportation funding
- Tribal transit

The panel ranks projects based on the criteria described in [Chapter 4](#).

The panel will recommend projects for a prioritized project list.

Project evaluation

Metropolitan planning organizations and regional transportation planning organizations grade projects at the regional level, denoting local priorities and accounting for additional evaluation points (i.e., A=50 points, B=25 points, C=12 points, and D= 0).

WSDOT has committed to funding as many projects with an “A” ranking from a metropolitan planning organization or regional transportation planning organization as funding allows. WSDOT forwards the remaining projects (with B, C, and D rankings) to the independent evaluation panel for their final review and ranking.

The independent evaluation panel evaluates projects using a forced-rank methodology. Each evaluator develops a priority project funding list. Evaluators compare and reconcile priority lists during the final evaluation meeting.

PROJECT AWARDS AND FUNDING

Using the prioritized list of projects, WSDOT matches the highest-ranking projects with the appropriate available sources of funding to provide support for as many projects as possible.

Grant awards are tentative until the federal and state government approve transportation budgets and provide appropriation levels to WSDOT.

Once the governor signs the budget for the 2025-2027 biennium, WSDOT will:

- Send letters notifying applicants of funding decisions (independent evaluation panel's comments are available by request).
- Finalize grant agreements for projects funded in the transportation budget.

PROJECT START DATE

A project funded for the 2025-2027 biennium may begin incurring eligible expenses July 1, 2025.

WSDOT cannot reimburse eligible expenses until a grant agreement has been executed. The agreement period extends from the date of contract execution through June 30, 2027.

GRANT MANAGEMENT REQUIREMENTS

To ensure compliance with regulatory requirements and established best practices, WSDOT requires that grantees adhere to specific grant management practices.

Grantees must participate in WSDOT training on grant management practices at the beginning of the grant term. Specific information on WSDOT's grant management requirements is in the [Consolidated Grant Guidebook](#).

Each grant recipient will have an assigned WSDOT community transportation planner who'll provide support, technical assistance, and compliance oversight of grants in their geographic area.

GLOSSARY

See <https://wsdot.ptd.webgrantscloud.com/externalDocRepository.do> for definitions of terms and programs referenced in this application.

CONSOLIDATED GRANT PROGRAM 2025-2027 VEHICLE/EQUIPMENT
PROJECT APPLICATION INSTRUCTIONS

English

Title VI Notice to Public

It is the Washington State Department of Transportation's (WSDOT) policy to assure that no person shall, on the grounds of race, color, national origin, as provided by Title VI of the Civil Rights Act of 1964, be excluded from participation in, be denied the benefits of, or be otherwise discriminated against under any of its programs and activities. Any person who believes his/her Title VI protection has been violated, may file a complaint with WSDOT's Office of Equity and Civil Rights (OECR). For additional information regarding Title VI complaint procedures and/or information regarding our non-discrimination obligations, please contact OECR's Title VI Coordinator at (360) 705-7090.

Americans with Disabilities Act (ADA) Information

Español

Notificación de Título VI al Público

La política del Departamento de Transporte del Estado de Washington (Washington State Department of Transportation, WSDOT) es garantizar que ninguna persona, por motivos de raza, color u origen nacional, según lo dispuesto en el Título VI de la Ley de Derechos Civiles de 1964, sea excluida de la participación, se le nieguen los beneficios o se le discrimine de otro modo en cualquiera de sus programas y actividades. Cualquier persona que considere que se ha violado su protección del Título VI puede presentar una queja ante la Oficina de Equidad y Derechos Civiles (Office of Equity and Civil Rights, OECR) del WSDOT. Para obtener más información sobre los procedimientos de queja del Título VI o información sobre nuestras obligaciones contra la discriminación, comuníquese con el coordinador del Título VI de la OECR al (360) 705-7090.

Раздел VI Общественное заявление

Политика Департамента транспорта штата Вашингтон (WSDOT) заключается в том, чтобы исключить любые случаи дискриминации по признаку расы, цвета кожи, или национального происхождения, как это предусмотрено разделом VI Закона о Гражданских Правах 1964 года, а также случаи недопущения участия, лишения льгот, или другие формы дискриминации в рамках любой из своих программ и мероприятий. Любое лицо, которое считает, что его средства защиты в рамках раздела VI были нарушены, может подать жалобу в Ведомство по Вопросам Равенства и Гражданских Прав WSDOT (OECR). Для дополнительной информации о процедуре подачи жалобы на несоблюдение требований раздела VI, а также получения информации о наших обязательствах по борьбе с дискриминацией, пожалуйста свяжитесь с координатором OECR по разделу VI по телефону (360) 705-7090.
