

Vantage Bridge truck restrictions

I-90 milepost 136.00 to 137.75

March 3, 2025 until approximately November 2025

- No loads over 9 feet wide

Permit Program

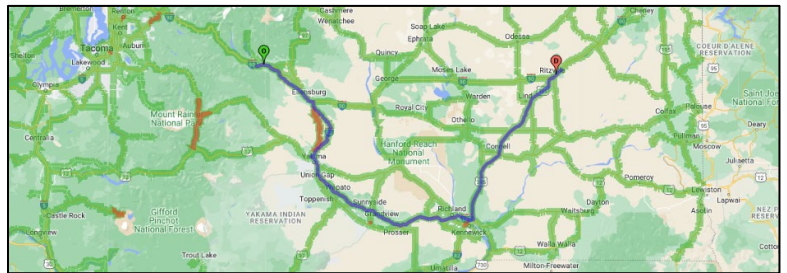

The Vantage Bridge is now a lower priority in the permit program, so the system will automatically route around it. If you want to take the bridge, (you are 9' wide or less), you need to add a via point on the routing page to make the system include the bridge in your route.

YouTube via points tutorial video:
