

# Vantage Bridge truck restrictions

I-90 milepost 149.75 to 111

## March 2, 2026 until approximately November 2026

- No loads over 9 feet wide
- Permit holders must verify real time truck restrictions on the WSDOT website prior to travel.
  - Travel center map: <https://wsdot.com/Travel/Real-time/Map/>
  - Truck restriction list: [I-90 between Moses Lake and Ellensburg | WSDOT](#)

## Permit Program

The Vantage Bridge is now a lower priority in the permit program, so the system will automatically route around it. If you want to take the bridge, (you are 9' wide or less), you need to add a via point on the routing page to make the system include the bridge in your route.
