II. Project Description

The Interstate Bridge Replacement (IBR) Program is a joint effort between Oregon and Washington to replace the aging interstate bridge across the Columbia River and improvements along Interstate-5 between Portland and Vancouver in Multnomah County and Clark County.

The initial phase of work is the Columbia River Bridge Reconstruction (CRBR) utilizing the Progressive Design Build (PDB) delivery method. Work that may be included as part of the CRBR may include, but are not limited to, new northbound and southbound bridges over the Columbia River, connection bridges to I-5, interchange connections (SR 14 and Hayden Island), roadways and structures, demolition and removal of existing bridges, pile removal, other in-water work, landscaping, retaining walls, maintenance of traffic, drainage, and other traffic safety elements.

WSDOT will utilize the ICE services provided by the selected firm to evaluate the Progressive Design-Builder's (PDB) preliminary estimates and the Guaranteed Maximum Price (GMP) submittal(s) for negotiating the contract and subsequent amendments. WSDOT may utilize ICE services for future phases of work in addition to CRBR.

The selected firm is expected to perform the following tasks as a minimum:

A) Request for Proposal (RFP) Consultation

• Engage and provide inputs to the procurement team on the RFP requirements for price related items which will benefit WSDOT in (1) managing the cost of time, materials, and labor during phase 1 [preliminary engineering], and (2) negotiating the GMP or lump sum of phase 2 [final design and construction] and subsequent amendments.

B) PDB Project Coordination and Collaboration

• Participate in frequent formal and informal communication, team meetings, and site visits with WSDOT and its selected progressive design-builder to gain a thorough understanding of the program and the project objectives. Provide input and feedback in the development of an approach to building the project, an overall project schedule, and identify innovative and effective solutions that address potential project challenges and lead to cost-saving opportunities.

• As needed, perform contract document reviews to help ensure the clarity, quality, and constructability of project documents.

C) Construction Cost Estimates and Project Schedule Development

• Develop and update independent production-based cost estimates and work schedule at 30/60/90% design with additional estimates as requested by WSDOT.

• Collaborate with the Progressive Design-Builder to define the elements of the cost estimating model for use during the PDB Contract.

• Support WSDOT's review of the draft and the revised draft of the Progressive Design-Builder's Cost Model developed under PDB Contract for WSDOT's approval.

• Review and independently verify tasks and durations for the Progressive Design-Builder's Work Schedule and provide comments necessary to ensure it is coordinated with the draft cost model and associated production rates.

• Identify and resolve differences between the Progressive Design Builder's cost estimate and the ICE.

• Evaluate budget feasibility, major cost drivers, and constructability impacts.

• Coordinate with the Progressive Design-Builder to ensure common understanding for the Basis of Estimate report to be submitted with each of the estimates identifies appropriately identifies

assumptions, market conditions, quantities, allowances, contingencies, and other items that may affect the price of the project.

• Provide support as needed for review of cost estimates developed for Progressive Design-Builder's proposed concepts, alternative analyses, preferred alternative selection, Design and Construction Phasing Plan, or Early Work Packages.

D) Risk Management

• Assist the project team in identifying, estimating and managing risks and recommending solutions that eliminate, minimize, or mitigate those risks.

• Provide risk cost estimating support and make recommendations as requested by WSDOT on risk allocation between WSDOT and the progressive design-builder.

• Participate in lessons learned at project contract completion.
